Union Budget 2022-23

The Union Budget seeks to complement macro-economic level growth with a focus on micro-economic level all-inclusive welfare. Tableuing the Union Budget 2022-23 in Parliament on 1st February 2022, the Union Minister for Finance & Corporate Affairs, Smt Nirmala Sitharaman proposed the Centre's economic recovery strategy led by a sharp increase in government spending that, in good time, is expected to drive private investment, growth and employment generation. In her 90-minute address, begun with an empathy for Indians who suffered the adverse health and economic impact of Covid-19, the Finance Minister credited the overall, sharp rebound and recovery of the economy to the country's strong resilience. India's economic growth in the current year is estimated to be 9.2 per cent, highest among all economies, she said.

The Indian industry welcomed the statement, calling it "the budget a bright spot in an otherwise dark horizon." At 9.2 per cent, India is the fastest-growing large economy with forex reserves over $630 billion. With vaccination success of 93% of eligible population with single dose and 70% fully vaccinated, it is time to look beyond the dark pandemic era.

Futuristic & Inclusive

The Union Budget 2022-23 is based on four pillars of PM GatiShakti, inclusive development, productivity enhancement and climate action, and financing investments. The budget stepped up the capital expenditure sharply by 36 per cent to Rs. 7.50 lakh crore. In the next fiscal, the scope of PM GatiShakti National Master Plan will encompass the seven engines for economic transformation, seamless multimodal connectivity and logistics efficiency. It will set out to build 25,000 km of more national highways, 100 new cargo terminals, four logistics parks, eight roapeway projects and 400 new Vande Bharat trains.

The Finance Minister announced an allocation of Rs 1 lakh crore to assist states in creating overall investments in the economy. These 50-year interest-free loans are over and above the normal borrowings allowed to the states, she said, and will be used for PM GatiShakti and other productive capital investment of the states. The fund allocation to states will cover additional funding of PM Gram Sadak Yojana, digitisation of the economy, including digital payments and comple-ment of optical fibre cable network, and forms related to building byelaws, town planning schemes, transit-oriented development and transferable development rights.

Agriculture continues to be a focus area for the government. The mega announcement for the second phase of the Minimum Support Price (MSP). The procurement of wheat in Rabi 2021-22 and the procurement of paddy in Kharif 2021-22 will cover 1.208 lakh metric tonnes of wheat and paddy from 183 lakh farmers at MSP of Rs.2.37 lakh crore direct payment of MSP value to their accounts.

The highlight of the use of Kisan Drones, which will promote crop assessment, digital record keeping, spraying of pesticides and nutrients. For delivery of digital and hi-tech services to farmers with increased research for public health and extension institutions along with private agri-tech players and stakeholders of agri-value chain, a scheme in public-private partnership model will be launched.

Chemical-free natural farming will be promoted throughout the country. This will be done in five lands in 5-km wide corridors along river Ganga in the first stage. The Indian states are encouraged to adopt chemical-free natural farming in agricultural universities to meet the needs of natural, zero-budget natural farming, and modern-day agriculture, value addition and management.

The budget also proposed a roll-out of digital and mobile farming schemes to increase domestic production of oilseeds to reduce India’s dependence on oilseeds imports. A fund with blended capital, raised under the co-investment model, will be facilitated for the development of digital and mobile farming. This is to finance startups for agriculture and rural enterprises, relevant for farm produce value chain. Subsidies for these startups will include, among others, support for farmer procurement management systems, machinery for farmers on rental basis at farm level, and technology, including IT-based support.

**Digital India 2.0**

Be digital is a theme that is consistent throughout the Union Budget. From recognising virtual assets as a tax asset, to amending the law itself by amendment of the Law (Repealing and Amending) Act, 2020. The Budget puts a strong emphasis on digital banking and land record digitisation, facilitating payment platforms, augmented reality, and virtual reality. With a strong focus on building optical fibre network, there are efforts to build India’s digital backbone. A combination of technology and enhanced technology and boost employment in the services sector.

In telecom, the government will soon be launching an initiative to go fully digital, which is expected to enable growth and job opportunities in the sector. These initiatives will be conducted in 2022 to facilitate roll-out of 5G mobile services in the financial year 2022-23 by private operators around the country. A scheme for design-led manufacturing will be launched to build a strong ecosystem for 5G as part of the Production Linked Incentive (PLI) Scheme. The Finance Minister has proposed to set up 75 Digital Banking Units (DBUs) in 75 districts of the country by 2023. The Digital Banking Units will be pilot rolled out by the Reserve Bank of India. The government has been promoting digital technologies and services in the financial sector.

Finance Minister Nirmala Sitharaman pushed for an array of digital technologies in the financial sector. She proposed a shift to use of public transport in urban areas, which will likely create a shift towards digital technologies and governance solutions, special mobility zones with zero fossil-fuel policy, and EV vehicles.

Considering the constraint of space in urban areas for setting up conventional stations at scale, a battery swapping platform will be brought out and interoperability standards will be formulated. The private sector will be encouraged to develop sustainable and innovative business models for ‘Battery or Energy as a Service’, which will improve efficiency in the electric vehicle ecosystem.

Digital India 2.0 is a scheme to promote digital and mobile farming schemes to increase domestic production of oilseeds to reduce India’s dependence on oilseeds imports. A fund with blended capital, raised under the co-investment model, will be facilitated for the development of digital and mobile farming. This is to finance startups for agriculture and rural enterprises, relevant for farm produce value chain. Subsidies for these startups will include, among others, support for farmer procurement management systems, machinery for farmers on rental basis at farm level, and technology, including IT-based support.

The indigenisation in building the military platforms in India. Led by the vision to reduce imports and promote made in India equipment for the armed forces, 68 per cent of the capital procurement budget will be earmarked for domestic industry in 2022-23, up from 58 per cent in 2021-22, said the Finance Minister. The area of research and development (R&D) in the defence sector will be opened for the industry, start-ups and universities with 25 per cent of the R&D budget earmarked. From 2022-23, private industry can take up design and development of military platforms and equipment in collaboration with DRDO and other organisations through a special purpose vehicle model.

The Centre will also set up an independent nodal umbrella body for meeting wide-ranging testing and certification requirements, she added.

The Jal Jeevan Mission has been allocated a sum of Rs.60,000 crore with an aim to cover 3.8 crore households in 2022-23. The year 2022-23 will also see completion of 80 lakh houses for the identified eligible beneficiaries of PM-Awaas Yojana, both rural and urban, for which Rs.48,000 crore has been allocated.

Two lakh anganwadis will be upgraded under Saksham Anganwadi and new generation anganwadis with better infrastructure and audio visual aids, powered by clean energy and providing improved environment for early child development.

The Finance Minister underlined the extended response received on the Re-Formatting Linkage Incentive (PLI) in 14 sectors for achieving the vision of Atmanirbhar Bharat with potential to create 60 lakh new jobs, and an additional production of Rs.30 lakh crore during next five years.

**Unlimiting Support to MSMEs**

With the vision of job creation all over, the Union Budget put forth a string of measures for the micro, small and medium enterprises (MSMEs). The Finance Minister announced the help of Emergency Credit Line Guarantee Scheme (ECLGS) launched in 2020 to mitigate the adverse impact of the pandemic and provided additional credit more than 130 lakh enterprises. The ECLGS will be extended up to March 2023, and its guarantee cover will be expanded by Rs.50,000 crore to total cover of Rs.5 lakh crores, with the additional amount being earmarked exclusively for the MSMEs and related enterprises.

The government-launched portals Udyam, e-Shop, NCM and ASEEM will be intensified and their scope widened. These portals will now have live, free-to-use digital platforms.

PM Shri Narendra Modi's Mann Ki Baat
30th January 2022

(HIGHLIGHTS)

- Today (30th January) is the death anniversary of our revered Babu Maman Gandhiji. Just a few days ago, we celebrated Republic Day as well. The display of the national flag and strength, which we witnessed on Rajpath in Delhi filled everyone with pride and enthusiasm. But what we must have noticed is that from now on, the Republic Day functions will start from the occasion of death anniversary of our revered Babu Maman Gandhiji.

- A digital sculpture of Netaji has been installed at India Gate which was well liked by our countrymen with much joy and reverence.

- During the Azadi Ka Amrit Mahotsav, the country is celebrated with the national symbols. The 'Armar Jahan Jyoti' near India Gate and the 'Jyoti' tilt at the 'National War Memorial' continue to shine. A memorial for Netaji has been merged. Some former soldiers of the army have written to me saying that - "The Armar Jahan Jyoti" tilt at the memorial is a symbol of the immortality of our heroes.

- In the midst of these events of Amrit Mahotsav, many important national awards were also given away in the country. One of them is the Pradhan Mantri Rashtriya Bhaal Puraskar. The award awakens in our children the enthusiasm to bring glory to the country.

- Padma awards have also just been announced. There are 17 recipients of Padma awards, about whom very few people know. These are the unsung heroes of our country who have done extraordinary deeds in various ordinary circumstances.

- More than one crore children have written 17 lakh through their 'Mann Ki Baat' post cards from different parts of the country and abroad. These post cards show how broad and wide is the vision of our new generation for the future of the country. I have also received 77 post cards from Croatia. Students of the School of Applied Arts and Design in Zagreb, Croatia have sent these 77 cards to the people of India and congratulated them on the Amrit Mahotsav. On behalf of all of us, India congratulates Croatia and her people.

- India has been the sacred land of education and knowledge. We have not confined education to bookish knowledge. Rather, we see it as a holistic experience of life. The great personalities of our country have also had a deep relationship with education. Even today, India has many torchbearers in the field of education. The awareness about education is visible at every level in the society. For example, Taimur Ali of Udmulpal block of Tripur district of Tamil Nadu who had accumulated some capital by selling coconut water, recently donated Rs 1 lakh for the construction of infrastructure at the Chinnaveerampati Panchayat Union Middle School in which her children study. Indeed, it takes a big heart, a sense of service, to do this. I have also come to know about a similar donation by an alumnus of IIT-BHU, Jai Chaudhary. He donated US$ 1 million, i.e., about Rs 7.5 crores to IIT-BHU Foundation.

- To encourage such noble efforts, from September last year, Vidyanjali Abhiyan has been started in the country. Its objective is to improve the quality of education in schools by connecting them with the participation of various organizations, Corporate, Social Responsibility (CSR) of private sector. Vidyanjali is furthering the spirit of community participation and ownership while being constantly connected with your school, college, to contribute something according to your ability, it is your choice whose fulfillment and joy can be felt only through experience.

- Love for nature and compassion for every living being is our culture as well as innate nature. A glimpse of these Sanskaras (values) of ours was seen recently when the tiger (officially named T-15 and lovingly called the 'collared tiger') by the locals left the world in Pench Tiger Reserve of Madhya Pradesh. The death of this tiger stirred a wave of emotion among the locals who performed her last rites and bid her farewell with full respect and affection. The collared tiger gave birth to 29 cubs in her lifetime and raised 25 of them to maturity. We also got to see a similar sight this time in the Republic Day when the charger mount of the President's Bodyguard, Virat took part in his last parade. Horse Virat came to Rashtrapati Bhavan in 2003 and served the parade every time on Republic Day as Commandant Charger. In view of various inhuman services, he was given a grand farewell on his retirement.

- Mentioning the rhinoceros, which holds a place of great glory in the culture of Assam, has had to face difficulties. In 2013, 37 and in 2014, 32 rhinos were killed by poachers. To tackle this challenge, a huge campaign was launched in the last seven years with the special efforts of the Assam government. On the 22nd of September last year, on the occasion of World Rhino Day, more than 2400 horns seized from smugglers were burnt, sending out a strong message to poachers. As a result of such efforts, there is a steady decrease in the hunting of rhinos in Assam. As per the latest report of the World Rhino Day, rhinos have already crossed the 30,000 mark.

- Ladakh will soon be blessed with an impressive Open Synthetic Track and Astro Turf Football Stadium being built at a height of more than 10,000 feet. This will be the largest open stadium in Ladakh. It will have seating capacity for 30,000 spectators. The stadium will also have a hostel facility with 1000 beds.

This stadium has already been certified by FIFA. Wherever a good infrastructure comes up, it brings great opportunities to the youth of the country as they are encouraged and employment opportunities are created.

- India is successfully fighting the new wave of corona. It is a matter of pride that almost 60% of the youth in the age group of 15 to 18 years have got their vacations within three to four weeks. 1 crore people have taken the precautionary dose as well. This trust of our countrymen on the indigenous COVID vaccine is our great strength. Now that the number of cases of corona infection has also started decreasing - this is a very positive sign. People should be safe, the pace of economic activities of the country should be maintained - this is the wish of every countryman.

- This brings us to the approximate English translation of the PM’s Mann Ki Baat originally delivered in Hindi). Source: pmindia.gov.in

CENTRAL THEME
Policy-Making under Conditions of Extreme Uncertainty

For second year running, the Economic Survey was tabled under the cloud of the Covid-19 pandemic. Other than the immediate disruptions and uncertainty caused by repeated waves of the pandemic, the longer-term uncertainty about the post-Covid world due to accelerated shifts in technology, consumer behaviour, supply-chains, geopolitics, climate change and a host of other factors affected the pace of the Indian economy. Not only are these individual factors difficult to forecast, the impact of their interactions are fundamentally unpredictable. The theme of this Economic Survey, therefore, relates to the art and science of policy-making under conditions of extreme uncertainty. This Economic Survey sets out to explain the alternative “Agile Approach” implemented through India’s economic response to the Covid-19 shock. This framework is based on feedback loops, real-time monitoring of actual outcomes, flexible responses, safety-net buffers and so on. The last Economic Survey did briefly discuss this approach but this time it is a central theme.

GROWTH OUTLOOK

The Indian economy is estimated to grow by 9.2 per cent in real terms in 2021-22 (as per the First Advance Estimates) after a contraction of 7.3 per cent in 2020-21. Growth in 2022-23 will be supported by widespread vaccine coverage, gains from supply-side reforms and easing of regulations, robust export growth, and availability of fiscal space to ramp up capital spending. The year ahead is also well poised for a pick-up in private sector investment with the financial system in a good position to provide support to the revival of the economy. Thus, India’s GDP is projected to grow in real terms by 8.0-8.5 per cent in 2022-23. This projection is based on the assumption that there will be no further debilitating pandemic related economic disruption, monsoon will be normal, withdrawal of global liquidity by major central banks will be broadly orderly, oil prices will be in the range of US$70-75/bbl, and global supply chain disruptions will steadily ease over the course of the year. The projection is comparable with the World Bank’s and Asian Development Bank’s latest forecasts of real GDP growth of 8.7 per cent and 7.5 per cent respectively for 2022-23. As per the IMF’s latest World Economic Outlook (WEO) growth projections released on 25th January, 2022, India’s real GDP is projected to grow at 9 per cent in both 2021-22 and 2022-23 and at 7.1 per cent in 2023-24. This projects India as the fastest growing major economy in the world in all these three years.

SECTORAL PERFORMANCE

AGRICULTURE

Agriculture Least Affected by Pandemic: Agriculture and allied sectors have been the least impacted by the pandemic and the sector is expected to grow by 3.9 per cent in 2021-22 after growing 3.6 per cent in the previous year. Importantly, the strong performance of the sector was supported by Government policies that ensured timely supplies of seed and fertilizers despite pandemic related disruptions. It was also helped by good monsoon rains.
- Agriculture sector accounted for a sizeable 18.8% (2021-22) in Gross Value Added (GVA).
- The agriculture sector is expected to clock a growth of 3.9% in 2021-22
- Minimum Support Price (MSP) policy is being used to promote crop production.
- Allied sectors including animal husbandry, dairying and fisheries are steadily emerging to be high growth sectors and major drivers of overall growth in agriculture sector.
- The livestock sector has grown at a CAGR (Compound Annual Growth Rate) of 8.15% over the last five years ending 2019-20.
- Livestock sector has been a stable source of income across groups of agricultural households accounting for about 15% of their average monthly income.
- Government facilitated food processing through various measures of infrastructure development, subsidized transportation and support for formalization of micro food enterprises.
- Government has further extended the coverage of food security network through schemes like PM Gareeb Kalyan Yojana (PMGKY).

INDUSTRY

Industrial Sector Shows Signs of Recovery: The industrial sector went through a big swing by first contracting by 7 per cent in 2020-21 and then expanding by 11.8 per cent in this financial year. The manufacturing, construction and mining sub-sectors went through the same swing although the utilities segment experienced a more muted cycle as basic services such as electricity and water supply were maintained even at the height of the national lockdown.
- Index of Industrial Production (IIP) grew at 17.4 percent (YoY) during April-November 2021 as compared to 15.3 percent in April-November 2020.
- Net profit to sales ratio of large corporates reached an all-time high of 10.6 percent in July-September quarter of 2021-22 despite the pandemic (RBI Study).

SERVICES

Contact-based Services Worst Affected: Services account for more than half of the Indian economy and was the most impacted by the COVID-19 related restrictions, especially for activities that need human contact. Although the overall sector first contracted by 8.4 per cent in 2020-21 and then is estimated to grow by 8.2 per cent in 2021-22, it should be noted that there is a wide dispersion of performance by different sub-sectors. Both the Finance/Real Estate and the Public Administration segments are now well above pre-COVID levels. However, segments like Travel, Trade and Hotels are yet to fully recover. It should be added that the stop-start nature of repeated pandemic waves makes it especially difficult for these sub-sectors to gather momentum. In contrast to contact-based services, distance-enabled services have increased their share with the growing preference for remote interfaces for office work, education and even medical services. Indeed, there has been a boom in software and IT-enabled services exports even as earnings from tourism have declined sharply.
- During the first half of 2021-22, service sector received over US$ 16.7 billion FDI (Foreign Direct Invest-ment) - accounting for almost 54 percent of total FDI inflows into India.
- IT-BPM (Information Technology - Business Process Management) services revenue reached US$ 194 billion in 2020-21, adding 1.38 lakh employees during the same period.
- Major government reforms include, removing telecom regulations in IT-BPM sector and opening up of space sector to private players.
- Services exports surpassed pre-COVID levels.
ECONOMIC SURVEY 2021-22

pandemic in January-March quarter of 2020-21 and grew by 21.6 per cent in the first half of 2021-22 - strengthened by global demand for software and IT services exports.

India has become 3rd largest start-up ecosystem in the world behind US and China. Number of new recognized start-ups increased to over 14000 in 2021-22 from 7331 in 2016-17.

44 Indian start-ups have achieved unicorn status in 2021 taking overall tally to 105, most of which are in services sector.

GVA (Gross Value Added) of services crossed pre-pandemic level in July-September quarter of 2021-22; however, GVA of contact intensive sectors like trade, transport, etc., still remain below pre-pandemic level.

Overall service sector GVA is expected to grow by 8.2 per cent in 2021-22.

During April-December 2021, the freight intensity of pre-pandemic level while air freight and port traffic almost reached their pre-pandemic levels; domestic air and rail passenger traffic are increasing gradually - shows impact of second wave was much more subdued as compared to the first wave.

DEMAND TRENDS

Latest advance estimates suggest full recovery of all components on the demand side in 2021-22 except for private consumption. Exports of both goods and services have been exceptionally strong so far in 2021-22, but imports also recovered strongly with recovery in domestic demand as well as higher international commodity prices.

Growth in Consumption: Total consumption is estimated to have grown by 7.6 per cent in 2021-22, while government consumption remaining the biggest contributor as in the previous year. Government consumption is estimated to grow by a strong 7.6 per cent surpassing pre-pandemic levels. Private consumption is estimated to have improved significantly to recover 97 per cent of pre-pandemic output level. This is supported by a sharp rebound in HPIs like IPP Consumer Durables. However, the recent dip in vehicle registration reflects persistent supply-side constraints owing to the shortage of semi-conductor chips rather than lack of consumption demand.

Further, RBI's consumer confidence survey indicates improvement in the situation and future expectations suggest sustained uptick in consumer sentiments. Also indicative of uptick in consumer sentiments is the steep rise in digital transactions, notably inUPI payments owing to thrust on digital payments and contactless payments. Private consumption is poised to see stronger recovery with rapid coverage in vaccination and faster normalisation of economic activities.

Investment Exceeds Pre-Pandemic Levels: Investment, as measured by Gross Fixed Capital Formation (GFCF) is expected to see strong growth of 15 per cent in 2021-22 and achieve full recovery of pre-pandemic level. Government’s policy thrust on quickening virtuous cycle of growth via capital expenditure and infrastructure spending has increased capital formation in the economy lifting the Investment : GDP ratio to about 29.6 per cent in 2021-22, the highest in seven years. While private investment recovery has been steady, the recent signs which indicate that India is poised for stronger investment. The number of private investment projects under implemen-tation in manufacturing sector has risen over the years. In calendar year 2021, private sector investments in project announcements, capital goods orders, plant and equipment, and real estate have increased.

Strong Recovery of Exports: India's exports of both goods and services have been exceptionally strong so far in 2021-22. Merchandise exports have been above US$ 30 billion for the first time in 8 months in 2021-22, despite a rise in trade costs arising from global supply constraints such as fewer operational shipping vessels, exogenous events such as blockage of Suez Canal and COVID-19 outbreak in port of call of South East Asia. Components & parts exports have also risen sharply, driven by professional and management consulting services, audio visual and related services, freight transport services, telecommunication, computer and information services. From a demand perspective, India's exports are expected to grow by 18.6 per cent in 2021-22 surpassing pre-pandemic levels. Imports also recovered strongly with domestic demand of continuous rise in price of imported crude and metals. Imports are expected to grow by 29.4 per cent in 2021-22 surpassing corresponding pre-pandemic levels. Resultantly, India's net exports have shown positive movement in all months of 2021-22, compared to a surplus in the corresponding period of 2020-21 with current account recording a modest deficit of 0.2 per cent of GDP in the first half. However, robust capital flows in the form of continued inflow of foreign investor were sufficient to finance the modest current account deficit. Elevated global commodity prices, revival in real economic activity driving higher domestic demand and growing uncertainty about global fiscal policy frameworks, are likely to sustain the current account deficit further during the second half of the year. However, it is expected to be within manageable limits.

FISCAL DEVELOPMENTS

Over the last two years, fiscal policy has remained a significant tool for addressing the economic fallout of the global pandemic. In the initial stages of the pandemic, the fiscal policy focused on building safety-nets for the poor and vulnerable sections of society to hedge against the worst-case outcomes. Stimulus measures such as direct benefits transfers to the vulnerable sections, emergency credit to the small businesses, and the world's largest food subsidy programme targeting 80.96 crore people through the creation of supplementary safety-nets, by ensuring that the essentials are taken care of. This was followed by a series of stimulus packages spread throughout the year 2020-21. With the restoration of economic activities, the fiscal response has been tailored to meet the demand in the economy. During this phase of economic recovery, the stimulus mix included investment boosting measures (like Production Linked Incentives), steps to encourage investment in infrastructure sector and enhancing capital expenditure by the Central and state Governments.

The focus on capital spending has been sustained during the current fiscal, with expenditure on railways, roads, urban transport, power, telecom, textiles and affordable housing amid continued focus on the National Infrastructure Pipeline. The National Infrastructure Pipeline projects was expanded to 7400 projects in Budget 2021-22. In order to unlock the domestic manufacturing potential across sectors, such as renewable energy, heavy industry, mining; the government is also working on medium to long term through multilayer effects. The stimulus measures announced during the year 2021-22 have continued the emphasis on liquidity and credit management through moral suasion measures such as the PLI Schemes, credit guarantee schemes and export boosting initiatives to support the reviving economy, apart from providing free food grains to the poor.

Performance of Fiscal Indicators

Sustained revenue collection and a targeted expenditure policy has contained the fiscal deficit at 48.2 per cent of Budget Estimate.

- Tax Revenues registered a growth of over 50 per cent.
- Revenue receipts from the Central government have grown by 67.2 per cent as against an expected growth of 9.6 per cent in the 2021-22 Budget (BE).
- Net tax revenue to the Centre, which was envisaged to grow at 8.5 per cent in 2021-22 BE, grew at 64.9 per cent during April to November 2021.
- Central investment expenditures are estimated at 47.2 per cent in April-November 2021.
- The corporate income tax registered a growth of 90.4 per cent in April-November 2021.
- The indirect tax receipts have registered a growth of 38.6 per cent during April-November 2021.
- Revenue from excise duties registered a growth of 23.2 per cent during April-November 2021.
- The Budget for the Centre for the year 2021-22 were 61.4 per cent of BE during April to November 2021.
- Gross GST collections, Centre and States taken together, were Rs. 10.74 lakh crore during April to December 2021, which is 48.1 per cent more over April to December 2020.
- The non-tax revenue collections up to November 2021 registered an increase of 79.5 per cent.

Expenditure

- The total expenditure of the Government increased by 8.8 per cent during April to November 2021 and stood at 59.6 per cent of Budget Estimate.
- Revenue expenditure has grown by 8.2 per cent during April to November 2021.
- Net interest revenue expenditure grew by 4.6 per cent during April to November 2021.
- Expenditure on major subsidies stood at Rs 2.31 lakh crore.
- Capital expenditure registered a growth of 14.8 per cent during April to November 2021.

EXTERNAL SECTOR

External Trade Recovered Strongly in 2021-22: After the pandemic-induced slump of the previous year, external trade recovered with strong capital flows into India, leading to a rapid accumulation of foreign exchange reserves. The resilience of India's external sector during the current year augurs well for growth revival in the economy. However, the downside risks of global liquidity tightening and continued volatility of global commodity prices remain. In this context, the fresh resurgence of COVID-19 with new variants may pose a challenge for India during 2022-23.

- India's merchandise exports and imports rebounded strongly and surpassed pre-COVID levels during the current financial year.
- Net capital flows were higher at US$ 56.8 billion in the first half of 2021-22.
- Foreign Exchange Reserves touched US$ 633.6 billion as of December 31, 2021.
- As of end-November 2021, India was the fourth largest forex reserves holder in the world after China, Japan and Switzerland.
- India's external debt rose to US$693.1 billion as of September 2021, from US$ 556.8 billion a year earlier, reflecting additional SDR (Special Drawing Rights) allocation by IMF, coupled with higher commercial borrowings.

Unemployment Continues in Global Economy: When the Economic Survey was being compiled, a new COVID wave in the form of the Omicron variant was sweeping across the world, inflation had jumped up in most countries, and the cycle of liquidity withdrawal was being initiated by major central banks. This is why it is especially important to look at India's macro-economic stability indicators and their ability to provide a buffer against the stresses.

Balance of Payments in Surplus: Despite all the shocks caused by the global pandemic, India's balance of payments remained in surplus throughout the last two years. This allowed the Reserve Bank of India to keep accumulating foreign exchange reserves (then the highest ever on record of US$ 633 billion on 31st December 2021). This is equivalent to 13.2 months of merchant-dispense imports and is higher than the country's external debt. The combination of high foreign exchange reserves, sustained foreign direct investment, and rising capital inflows will provide an adequate buffer against possible global liquidity tapering in 2022-23.
**MONETARY DEVELOPMENTS**

Monetary policy and liquidity operations since the beginning of the COVID-19 pandemic have geared towards mitigating its adverse impacts on the economy. Accommodative monetary policy along with other regulatory dispensations, asset classification standstills, temporary moratorium and provision of adequate liquidity were in place to provide a safety net to the system. In 2021-22, some of the measures undertaken by RBI like CRR reduction reached pre-Covid levels, liquidity has been wound down partly but remains in surplus mode and regulatory measures have been realigned.

- **Reduction in central excise and subsequent cuts in Value Added Tax by most States helped ease petrol and diesel prices.**
- **Wholesale Price Index (WPI)-based inflation rose to 12.5 per cent.** This has been attributed to various factors including a base effect in the previous year, pick-up in economic activity, sharp increase in international prices of crude oil and other imported inputs, and high weightage.

**SUSTAINABLE DEVELOPMENT & CLIMATE CHANGE**

India’s overall score on the NITI Aayog SDG India Index and Dashboard improved to 66 in 2021-20 from 60 in 2019-20.

- **Number of Front Runners (scoring 85-99) increased to 22 States and UTs in 2020-21 from 10 in 2019-20.**
- **In North East India, 64 districts with 217 Plans and 39 districts were Performers in the NITI Aayog North Eastern Region District SDG Index 2021-22.**
- **India has the ninth largest forest area in the world.**
- **In August 2021, the Plastic Waste Management Amendment Rules, 2021, was notified which is aimed at phasing out single plastic by 2022.**
- **Draft regulation on Extended Producer Responsibility for packaging was introduced in 2021.**
- **The Compliance status of Grossly Polluting Industries (GPIs) located in the Ganga main stem and its tributaries increased from 51 per cent in 2019-20 to 81 per cent in 2020.**
- **The consequent reduction in effluent discharge has decreased from 349.13 millions of litres per day (MLD) in 2017 to 280.20 MLD in 2020.**

**EMPLOYMENT TRENDS**

As per the quarterly Periodic Labour Force Survey (PLFS) data up to March 2021, employment in urban sector affected by pandemic has recovered almost to the pre-pandemic level.

- **The number of unemployed persons in 2019-20 has decreased by 23 lakhs, constituted largely by males from the rural sector.**

- **Between 2018-19 and 2019-20, about 4.75 crore additional persons joined the workforce. This is about three times more than the employment growth created between 2017-18 and 2018-19.**

- **The rural sector contributed much more to this expansion relative to the urban sector (3.45 crore in rural sector and 1.30 crore in urban sector).**

- **Among the additional workers, 2.99 crore were females (63 per cent).** About 65 per cent of the additional workers in 2019-20 were self-employed.

- **About 75 per cent of the female workers who joined as self-employed were unpaid family labour.**

- **About 18 per cent of the additional workers were Casual Labourer and 17 per cent were ‘Regular Wage/ Salaried Employee’.**

- **Trade, hotel and restaurant sector accounted for a little over 92 per cent of the new workers.**

- **The share of manufacturing has declined from 5.65 per cent of new workers added in 2018-19 to about 2.41 per cent of new workers added in 2020.**

- **The share of construction has also declined from 26.26 per cent to 7.36 per cent.**

**Skill Development:** As per the report of first quarter (April-June, 2021) of Quarterly Employment Survey (QES) in 2021 only 1 to 1.5 per cent of estimated establishments were imparting formal skill training. Sectors such as IT/BPO imported skill training in 29.8 per cent of the 27.2 million estimated establishments, followed by 26.2 per cent financial services and 21.1 per cent education sector's establish-ments. Further, about 24.3 per cent estimated establishments were found to be imparting ‘On-the-Job’ training, which is 88.0 per cent of IT/BPO sector (36.1 per cent of establishments) and financial services sector (34.8 per cent). Meanwhile, government initiatives like the focus on vocational training in the National Education Policy, Skill India Mission, AatmaNirbhar Skilled Employers Employers Mapping (ASEEM) portal, India International Skill Centre (IISC) Network, Pradhan Mantri Dakastra Aur Kushtia Sampamp Hilagri Yojana (PM-DASKH) continued to facilitate the reskilling and up-skilling of the labour force to make them industry-ready.

What are your aspiration for India in the next 25 years?

**NAME: SHACHI SUDHIR**

**SECTOR: 22-C, CHANDIGARH**

At this juncture of Amit Mahatov-SIndia@75, I aspire for a global superpower India which is-

- Gradually phasing out of the concessional rates in capital goods and project imports; and applying a moderate tariff of 7.5 percent conducive to the growth of the domestic sector and ‘Make in India’.
- Certain expositions for advanced machines that are not manufactured within the country shall continue.
- A few expositions introduced on inputs, like specialised castings, ball screw and linear motion guide - to encourage domestic manufacturing of capital goods.
- Review of customs exemptions and tariff simplification
- More than 350 exemption entries proposed to be gradually phased out, like exemption on certain agri-cultural produce, chemicals, fabrics, medical devices, & drugs and medicines for which sufficient domestic capacity exists.
- Simplifying the Customs rate and tariff structure particularly for sectors like chemicals, textiles and metals and minimise disputes; Removal of exemption on items which are or can be manufactured in India and providing concessional duties on raw materials to go into manufacturing of intermediate-products in line with the objective of ‘Make in India’ and ‘Atmanirbhar Bharat’.

**SECTOR SPECIFIC PROPOSALS**

**Electronics**

- Customs duty rates to be calibrated to provide a graded rate structure - to facilitate domestic manufacture of wearable devices, hearable devices and electronic smart meters.

**Gems and Jewellery**

- Customs rate on cut and polished diamonds and gemstones being reduced to 5 per cent; Nil customs duty to simply diamond - to give a boost to the Gems and Jewellery sector.

**Exports**

- To incentivise exports, exemptions being provided on items such as embalming, trimming, fasteners, buttons, zipper, lining material, specified leather, furniture fittings and packaging materials.

- Duty being reduced on certain imports required for shrimp aquaculture - to promote its exports.

**Tariff measure to encourage blending of fuel**

- Unblended fuel to attract an additional differential excise duty of Rs. 2/km to the 1st of October 2022 - to encourage blending of fuel.

government employees and bring them at par with central government employees.

The Union Budget 2023-24 has kept income tax slabs unchanged while allowing taxpayers an additional two years to avail the tax benefits. While presenting budget proposals, Finance Minister Nirmala Sitharaman said, the government’s objective was to further simplify the tax system, promote ease of doing business by taxpayers and reduce litigation.

Based on a trust-based governance mechanism, the finance bill has allowed taxpayers to file Updated Return. The retention will provide taxpayers an opportunity to correct errors while filing returns or missing out on reporting transactions. This return can be filed within two years from the end of the financial year in which the tax is assessed.

Newer Areas of Taxation

The most outstanding taxation announcement was for virtual digital assets, an area that has seen phenomenal increases in transactions in recent years. In 2022-23, any income from transfer of any virtual digital asset shall be taxed at the rate of 30% per cent from the coming financial year.

To bring parity between employees of state and central government, it has been proposed to raise the tax deduction limit from 10% to 14% on employee’s contribution to the National Pension System (NPS) account of state government employees as well. The increase will only come into the social security benefits of state government employees and will not have implications on the tax liability of individuals.

Boost to Urban Development

The Union Government in the budget pushed for better urban planning in India’s megacities. The focus is on sustainable measures and public transport. In her address, the Finance Minister pushed for orderly urban development, “to help realise the country’s economic potential, including livelihood opportunities for the demographic dividend.” She underlined the need to nurture the megacities and their hundreds of current and planned transit-oriented development would be implemented.

Special Mentions

Under the new Vribhak Vistarak Programme, border villages will be linked with connectivity and infrastructure on the northern border will be covered. The budget also allocates Rs 20,000 crore under the Rural Development Programme for infrastructure, housing, tourist centres, road connectivity, provision of water and electricity, and for any other schemes for rural areas.

In 2022-23, 100 per cent of 1.5 lakh companies will come on the core banking system enabling financial inclusion and access to accounts through 11 net banking, mobile banking, ATMs, and providing online transfer of funds between post office accounts and bank accounts. This will be helpful, especially for skilling e-aadhaar card holders in rural areas, enabling interoperability and financial inclusion.

In her address, the Finance Minister recognised the loss of formal education due to the pandemic and said that skill development is critical to the rural areas, and those from weaker sections. With government school student affected most, the need is to impart supplementary teaching and build a resilient mechanism for education delivery, was underlined. To overcome this gap, ‘one-class-one TV channel’ provision of online education is allowed to be expanded from 120 to 200 TV channels, enabling all states to provide supplementary education in regional languages for classes 1-12. Vocational education and digital teaching aids were also addressed in the budget, with 750 virtual labs in science and mathematics and 75 VR labs for schools in a simulated learning environment. High-quality e-content in all spoken languages will be developed and made available through the internet, phones, TV and radio. A competitive mechanism for development of e-content by teachers will be set up to empower and equip them with digital tools of teaching and become leading practitioners. The outcome, the Finance Minister said, would be a high-skill, high-wage, high-income, high-quality workforce.

The Union Budget 2023-24 has been described as a budget for continuity. This new phase will be guided by an active involvement of the states, with a focus on developmental processes and interventions, integration of the central and state-level programmes, new IT bridges with single point access for all citizen-centric services, and a standardisation, removal of duplicity in rules, compliance, and preparing the country to take the road to smarter and greener 25.

Induction of women fighter pilots in IAF becomes a permanent scheme

The Defence Ministry has decided to convert the Experimental Scheme for Induction of Women Fighter Pilots in the Indian Air Force (IAF) into a permanent scheme. In a tweet, Defence Minister Shri Rajnath Singh said, “It is a step towards the capability of India’s Nari Shakti (women power) and our Prime Minister Narendra Modi’s commitment towards women empowerment. Indian Air Force undertakes various induction publicity measures to encourage youth, including women, to join us. A total of 16 women have been commissioned as fighter pilots after the experimental scheme for their induction. In 2018, flying officer Avani Chaturvedi of the Air Force became the first Indian woman to fly a fighter aircraft solo. India’s first woman Rafale fighter jet pilot Shivangi Singh captured the imagination of the country when she took part in the Indian Air Force’s centenary parade.”

Enrolment of graduates at Employment Exchange not mandatory, clarifies Govt

The Government has clarified that it does not have any proposal to make it mandatory for graduates to register at employment exchange at districts across the country. The registration at employment exchanges across the country for availing employment-related services is voluntary.

The Ministry is implementing National Career Service (NCS) Project to provide a variety of career related services viz. job search and matching, career counselling, vocational guidance, information on skill development courses, etc. The services are available online on the National Career Service Portal (www.ncs.gov.in). This information was given by Shri Rameswar Teli, Minister of State, Ministry of Labour & Employment, in Rajya Sabha on 3rd February.

Two more Indian wetlands added to Ramsar list

The Khiadiya Bird Sanctuary near Jamnagar in Gujarat and Bahirka Wildlife Sanctuary in Uttar Pradesh have been listed as Wetlands of International Importance by the Ramsar Convention, an international treaty for the conservation and sustainable use of wetlands. The announcement by the Ramsar Secretariat in Iran came on the eve of International Wetlands Day (2nd February). With this, the total number of Ramsar sites in India goes up to 48. Prime Minister Shri Narendra Modi tweeted, “Excellent news! India having the largest network of Ramsar Sites in South Asia manifests the commitment of our citizens to protect flora and fauna and live in harmony with nature.”
