Making India a Global Drone Hub

Drone infrastructure, surveillance, emergency response, transportation, geo-spatial mapping, defence, and law enforcement to name a few.

Drones can be significant creators of employment and economic growth due to their reach, versatility, and ease of use, especially in India’s remote and inaccessible regions.

One may struggle to think of an area where drones cannot be used. The drone technology is expected to be as ubiquitous as mobiles, computers and the internet.

Question: Please tell us briefly about the key sectors that have successfully adopted drone technology in India?

Amber Dubey: Agriculture-Spray drones are helping farmers in optimizing the use of inputs (seed, fertilizers, water), to react more quickly to threats (weeds, pests, fungi), to save time crop scouting (validate treatments/actions taken), to improve variable-rate prescriptions in real time and estimate yield from a field. Use of drones saves our farmers from the harmful effects of chemical exposure to their eyes, lungs and skin.

Drones may be used to analyse the health of any vegetation or crop, as well as to monitor and predict crop yield, soil health, and water use efficiency.

Career Opportunities in Drone Sector

Drone pilots and operators are required in a wide range of industries, including agriculture, transportation, surveillance, emergency response, and more. With the increasing demand for drone technology, the demand for skilled professionals in this field is growing.

Types of Jobs in Drone Industry:

1. Drone Operator: Responsible for operating drones in various industries such as agriculture, real estate, and transportation.
2. Drone Pilot: Piloting drones for aerial photography, surveying, and other tasks.
3. Drone Technician: Maintaining and repairing drones.
4. Drone Salesperson: Selling drone technology to businesses and individuals.

MAKING INDIA A GLOBAL DRONE HUB

as field areas infested with weeds, diseases, and pests, and the precise amounts of chemicals needed to combat these infestations can be applied based on this assessment, lowering the overall cost for the farmer.

Rural property mapping (SVAMITVA Scheme) - Under the revolutionary SVAMITVA Scheme, the government is using drone technology to map each residential property in each of the 66 lakh villages in India. This is the largest such drone-based property mapping project in the world. Rural property owners are given a digital property card that helps them carry out property transactions or raise loans with ease and transparency. Lack of digital property cards have been issued by December 2021.

Minning - In mining, drones have several applications like mine surveying, inventory management, stockpile estimation and hot spot detection etc. Mine surveying can be done using drones to provide detailed information about the sites before starting with mining projects and document their progress to visualize changes in site overtime.

Drones can access highly-toxic-hard-to-reach areas for providing better insights for mine planning. In coal mines, drones can be used to detect hot spots in coal stockpiles to assess potential spontaneous combustion areas and enable personnel take preemptive measures. Drones can further aid in watershed management, blast planning, haul-route surface optimization and emergency response.

Surveillance - Drone surveillance helping in capturing still images and video to gather information about specific targets, which might be individuals, groups or environments. Drone surveillance enables surreptitiously gathering information about a target as captured from a distance or altitude.

Defence - Drones can identify security and terrorism-related challenges and pinpoint vulnerable areas that are prone to various risks. Drones are the modern-day force multiplier that can enhance the capabilities of security forces to contain terror and to counter the emerging challenges in defence and homeland security.

Law enforcement - Drones are being rapidly adopted by various law enforcement agencies throughout the world because of the several advantages.

Drones are faster than conventional vehicles when used as first responders. They can reach a location within minutes after receiving an emergency request, and can be deployed within minutes to the scene.

The conventional method of deploying a manned helicopter is expensive and time-consuming, and may not be suitable for situations that require an immediate response.

Drones can save lives. Drones can be equipped with various attachments depending on the task; these payloads can be controlled by a single officer from a safe distance. This is useful in dangerous situations like counter-insurgency, hostage rescue, car-chase, etc. where a police officer can engage a perpetrator from a safe distance without risking the officer’s life.

Drones are a potent public safety tool. Drones can cover a large area easily, and they can be equipped with thermal sensors. These make them effective in search and rescue operations.

Question: Please tell us about India’s ambition to become a drone manufacturing hub.

Amber Dubey: Given its traditional strengths in innovation, information technology, frugal engineering and its huge domestic demand, India has the potential of becoming a global drone hub by 2030.

The Central Government has carried out a series of reform measures such as the release of:

- Liberalised Drone Rules, 2021 on 25th August 2021
- Drone Airspace Map on 24th September 2021
- Production-Linked Incentive (PLI) scheme for drones on 30th September 2021

- UAS Traffic Management (UTM) Policy Framework on 24th October 2021
- All application forms on the online single window DigitalSky Platform on 26th January 2022
- Certification scheme for drones on 26th January 2022

These initiatives are intended to provide additional fillip to the fast-growing drone sector in India.

Question: Is there any specific provision for drone manufacturers in the Production Linked Incentive (PLI) Scheme? How does the drone industry stand to benefit from the scheme?

Amber Dubey: All manufacturers of drones and drone components whose annual sales turnover is above the following threshold shall be eligible for claiming PLI:

<table>
<thead>
<tr>
<th>Indian MSME and startups</th>
<th>Indian Non-MSME</th>
</tr>
</thead>
<tbody>
<tr>
<td>Drone (INR Cr)</td>
<td>Component (INR Cr)</td>
</tr>
<tr>
<td>2</td>
<td>0.5</td>
</tr>
</tbody>
</table>

The total incentive is INR 120 crore spread over three financial years which is nearly double the combined turnover of all domestic drone manufacturers in FY 2020-21.

The PLI rate is 20% of the value addition, one of the highest among PLI schemes. The rate is kept constant at 20% for all three years, an exceptional treatment for drones.

The value addition shall be calculated as the annual sales revenue from drones and drone components (net of GST) minus the purchase cost (net of GST) of drone and drone components.

- Minimum value addition norm at 40% of net sales for drones and drone components instead of 50% of exceptional treatment for drones.

In case a manufacturer fails to meet the threshold for the eligible value addition for a particular financial year, she will be allowed to claim the lost incentive in the subsequent year if she makes up the shortfall in the subsequent year.

Question: What is the provision of Foreign Direct Investment (FDI) in drone industry? What kind of investment forecast do you currently have for this sector?

Amber Dubey: Drone Rules, 2021 does not have any restriction on foreign shareholding in Indian commercial drone companies. It is expected that Indian drone companies may receive an FDI of over INR 2,000 crore over the next three years.

Question: As specified in the new Drone Rules -2021, Drone Corridors are to be developed to facilitate cargo deliveries. What is the current status of the project?

Amber Dubey: National Unmanned Aircraft System Traffic Management (UTM) Policy Framework was released on 24th October 2021 to enable complex operations of drones and increase the overall safety in the UTM airspace.

Current Air Traffic Management (ATM) systems have not been designed to handle the traffic from unmanned aircraft. Integration of unmanned aircraft in the Indian airspace using conventional means may require unmanned aircraft to be

PRADHAN MANTRI RASHTRIYA BAL PURASKAR-2022

29 Children from Across India Win in Different Categories

Children have been conferred the Pradhan Mantri Rashtriya Bal Puraskar (PMRBP) 2022, selected from all regions of the country for their exceptional achievements in Innovation, Social Service, Scholastic, Sports, Art & Culture, and Bravery. There are 15 boys and 14 girls among the awardees belonging to 21 States and UTs.

In view of the unprecedented circumstances emerging due to COVID-19 situation in the country, it was not possible to organise a physical ceremony at New Delhi. In order to felicitate and motivate the exceptional works of children, a function was held virtually on the occasion of National Girl Child Day on 24th January 2022 and also as part of Azadi Ka Amrit Mahotsav. The Awardees of PMRBP 2022 as well as the awardees of last year (2021) along with their parents and concerned District Magistrate of their respective district joined the event from their district headquarters. Prime Minister Shri Narendra Modi interacted virtually with the winners. Union Women and Child Development Minister Smt. Maneka Sanjay Gandhi and Dr. Muniraj Mahendrakar, Minister of State were among those present on the occasion.

Digital Certificates

The digital certificates were presented to the winners using a blockchain-driven technology developed by IIT Kanpur under the National Blockchain Project. The digital certificates are stored in digital wallets installed on the mobile devices of the recipients.

The digital certificates issued using the blockchain driven technology are unforgeable, globally verifiable, selectively disclosable and sensitive to user content. Prime Minister Shri Narendra Modi gave the digital certificates to the winners of PMRBP 2021 and 2022 (total 61).

Cash Prize

The cash prize of Rs.1,00,000/- each was given to the awardees of PMRBP 2022 which was transferred online to their bank accounts.

Awardees of Pradhan Mantri Rashtriya Bal Puraskar-2022

Although every child is precious and his or her achievements have to be appreciated, there are some whose achievements will serve as an inspiration to many others. Towards this end, the Pradhan Mantri Bal Shakti Puraskar is given by the Government of India every year to recognize exceptional achievements in different fields. Also, to recognize the contribu-ton of dedicated individuals and institutions, whose tireless efforts complement the actions taken by the Government of India for the welfare of children, the Bal Kalyan Puraskar was instituted and is given in two categories - Individual and Institution.

Any child with an exceptional achievement in the fields of innovation, scholastic achievements, social service, arts & culture, sports and bravery can apply for the award. Also, any person who knows about a meritorious achievement by a child can recommend this child for the award. A high-level committee selects the winners after careful consideration of each application. Applications can be filled through the dedicated web portal of the Ministry of Women and Child Development (nca-wcd.nic.in). The portal is now receiving applications for Pradhan Mantri Rashtriya Bal Puraskar 2023.

Rising High, the Drone Way

Employment News spoke to Shri Manish Bajpai, Director, Daybest Research Private Limited. The Indian Council for Medical Research (ICMR) had collaborated with Daybest for the Drone Response and Outreach in North East (i-Drone) in October 2021. It was for the first time that a “Make in India” drone was used in South Asia to transport COVID vaccine over an aerial distance of 15 kilometers in 12 to 15 minutes from the Bishnupur district hospital to Karang Island in the middle of Loktak lake, Manipur for administration at the Primary Health Centre.

How did the idea for your venture come about?

Manish Bajpai: After seeing lack of data digitization in rural India which is big roadblock for development, we saw opportunity in developing drones which can carry multiple sensors for agriculture, healthcare and defense.

What kind of customer base do you currently have and what goals have you set for the near future?

Manish Bajpai: Currently, we are mostly working with central and state government agencies, institutions, Farmers- Producers Organization (FPO) and Universities. Very soon we will be deploying our aircraft for long range surveillance. We also plan to build a Drone Station in every Panchayat in India on rental model which will give the people and farmers direct access to the technology.

What kind of manpower does your company hire?

Manish Bajpai: We hire for Technical Team which includes Aerospace Engineers, Electrical Engineers. Then our Operational Team needs Flight Supervisors, Drone Pilots, Maintenance Engineers. Our Ground Team includes Field Data Collection Associates - this job is not very much technical.

What is your perception of India’s Startup ecosystem?

Manish Bajpai: The Startup ecosystem is moving towards the mature stage. Now, Venture Capitals (VC) are easily accessible. Moreover, the governments are buying products/services from Startups. This provides the industry with the much required moral and financial boost.

Your advice to Indian youths seeking to establish a Startup.

Manish Bajpai: Take one project/product, do intense field work, ground research, make your prototype functional and commercial, and give time. Rome was not built in a day!

What do you forecast for the future of drone delivery in India?

Manish Bajpai: Drone delivery will first gain more traction in hard to access areas like mountains, hills and island. It will eventually become the norm in all other areas.

Tell us about your experience of collaboration with the ICMR for vaccine delivery in the North East.

Manish Bajpai: I am thankful for DG, ICMR for trusting on our capabilities. We learnt a lot while completing this project. As a result, many state governments have shown their interest.

(Interviewed by EN team).
NTPC Limited, India’s largest power conglomerate has an installed capacity of 67,907.5 MW with presence in the entire value chain of the power generation business. Commensurate with our country’s growth challenges, NTPC has embarked upon an ambitious plan to attain a total installed capacity of 130 GW by 2032. NTPC also owns 7 allotted coal blocks with a combined future capacity of 100 MT.

Applications are invited from energetic and experienced Mining Overman and Mining Sirdar with brilliant academic record to join this organization in its various Coal Mining Projects viz. Pakri Barwadih Coal Mining Project (Jharkhand), Chhattisgarh Coal Mining Project (Jharkhand), Kerandari Coal Mining Project (Jharkhand), Dulanga Coal Mining Project (Odisha) and Talaipali Coal Mining Project (Chhattisgarh) under Coal Mining Region of NTPC Limited.

To fuel its ambitious growth plan, NTPC is looking for experienced professionals in the areas of Mining Overman and Mining Sirdar, on fixed term basis, for a period of 03 years or completion of 60 years of age, whichever is earlier. The qualifying requirements are as under:

A. Mining Overman - 74 posts (on Fixed Term Basis for 03 years)

Experience Profile: Minimum 05 years of post-qualification working experience in open cast Coal Mines.

Upper Age Limit: 57 years

B. Mining Sirdar - 103 posts (on Fixed Term Basis for 03 Years)

Experience Profile: Minimum one year of post qualification working experience in open cast coal mine.

Upper Age Limit: 57 years

MONTHLY COMPENSATION & BENEFITS:

Minister Overman: Consolidated fixed monthly pay of Rs. 50,000/-

Minister Sirdar: Consolidated fixed monthly pay of Rs. 40,000/-

In addition, medical facilities and HRA/company accommodation shall be provided as per Company Rules. On official tour, the Company will reimburse TA/DA as applicable to regular employees in equivalent grade.

Period of Engagement: Fixed Term Basis for a period of 3 years or completion of 60 years of age, whichever is earlier for both the posts.

SELECTION PROCEDURE:-

1. The mode of selection for eligible applicants for both the above posts will be Written Test and Skill Test. The eligible candidates as per age, qualification, experience etc. will be called for the Written Test. The Call letters/Admit Cards will be sent to the eligible candidates through email. NTCP will not be responsible for any loss of email sent due to invalid/wrong email id provided by the candidate.

2. Eligible candidates will be required to appear for Written Test, consisting of Multiple-Choice Questions, in any of the Centres as decided by the Company. The tentative Written Test Centres are Ranchi, Raipur, and Bhubaneswar. However, the number of Written Test Centres may increase or decrease at the discretion of the Company, depending upon the number of applications received. The question paper shall be in Hindi and English.

3. The candidate, who qualify in the Written Test will undergo a Skill Test, which will be qualifying in nature. The qualifying candidates will be called in the ratio of 1:3 based on merit of the Written Test. However, final selection will be based on marks obtained in the Written Test only.

4. On completion of the Selection Procedures, the selected candidates shall be issued Offer of Appointment, on fixed term basis, in phased manner, from the panel, based on requirement of the concerned Coal Mining Project, subject to successful document verification, and on being declared fit in the medical examination.

GENERAL CONDITIONS:-

1. Only Indian Nationals are eligible to apply.

2. All qualifications should be from Universities / Institutions recognized and approved in India.

3. All computations of age / experience requirement / qualification shall be done w.r.t. the last date of receipt of online application as mentioned in the advertisement.

4. Candidates claiming to belong to any category shall necessarily have a valid EWS/OBC/NCL/SC/ST/Disability Certificate, as the case may be, from the Competent Authority. For posts where there are identified vacancies for SC / ST candidates, the total years of post-qualification experience will be relaxed by 1 year.

5. Depending on the requirement, the Company reserves the right to cancel / restrict / curtail / enlarge the number of vacancies, if need so arises, without any further notice and without assigning any reason thereof.

6. While applying for the post, the applicant should ensure that he / she fulfills the eligibility and other norms mentioned above, as on the specified dates and that the particulars furnished are correct in all respects. In case it is detected at any stage of recruitment that a candidate does not fulfill the eligibility norms and / or that he/ she has furnished any incorrect/false information or has suppressed any material fact(s), his/her candidature will stand automatically cancelled. If any of the above shortcomings(s) is/ are detected even after appointment, his/ her services are liable to be terminated.
REPUBLIC DAY 2022- AWARDS & HONOURS

The Republic Day celebration is also the occasion to recognise and honour the brave personnel in the armed forces and police for their exceptional courage in the field, and also to civilians who have performed acts of valour in different situations.

Ashok Chakra: Assistant Sub-Inspector of Jammu and Kashmir Babu Ram who lost his life in an encounter with terrorists at Pantha Chowk in Jammu and Kashmir in 2020 has been awarded the Ashok Chakra posthumously by the President of India, Ram Nath Kovind. His family received the award during the Republic Day Parade. Ashok Chakra is the country’s highest peace-time gallantry award. Babu Ram killed three terrorists during an operation in Srinagar on August 29, 2020.

Other Gallantry Awards

The President has approved 384 Gallantry awards and Defence decorations to Armed Forces personnel and others. These include 12 Shaurya Chakras including, 29 Param Vishisht Seva Medals, 4 Uttam Yudh Seva Medals, 53 Ati Vishisht Seva Medals, 13 Yudh Seva Medals, 3 Bar to Vishisht Seva Medals, 122 Vishisht Seva Medals, 3 Bar to Sena Medals (Gallantry). Besides, 81 Sena Medals (Gallantry), 2 Vayu Sena Medals (Gallantry), 40 Sena Medals for Devotion to Duty, Eight Nao Sena Medals and 14 Vayu Sena Medals have been approved. Out of the total 12 Shaurya Chakra Awardees, 9 of them have been awarded posthumously. Olympian Neeraj Chopra who is a Subedar in the Indian Army has been honoured with Param Vishisht Seva Medal. Neeraj Chopra won the gold medal for India in the javelin throw event at Tokyo Olympics.

Civilian Awards

President Shri Ram Nath Kovind has approved conferment of 128 Padma Awards including 2 duo case (in a duo case, the Award is counted as one). The list comprises 4 Padma Vibhushan, 17 Padma Bhushan and 107 Padma Shri Awards. 34 of the awardees are women and the list also includes 10 persons from the category of Foreigners/NRI/PIO/OCI and 13 posthumous awards. The Awards are given in various disciplines/fields of activities viz.- art, social work, public affairs, science and engineering, trade and industry, medicine, literature and education, sports, civil service, etc. ‘Padma Vibhushan’ is awarded for exceptional and distinguished service; ‘Padma Bhushan’ for distinguished service of high order and ‘Padma Shri’ for distinguished service in any field. The awards are announced on the occasion of Republic Day every year. These awards are conferred by the President of India at ceremonial functions which are held at Rashtrapati Bhawan usually around March/April every year.

Police Awards

On the occasion of Republic Day 2022, 938 service medals, including 189 for gallantry, were announced for personnel of various central and state police forces. The Union Home Ministry published a list containing names of personnel who have been decorated with the Police Medal for Gallantry (PMG), President’s Police Medal for Distinguished Service and Police Medal for Meritorious Service. No one has been given the top category President’s Police Medal for Gallantry (PPMG) this time. Among the 189 gallantry awards, 134 personnel are being recognized for their gallant action in Jammu and Kashmir region, 47 for their bravery in Left Wing Extremism (LWE) affected areas and one personnel for similar conduct in the north-east region.

The highest number of bravery medals, 115, have been awarded to the Jammu and Kashmir Police, followed by 30 to the Central Reserve Police Force (CRPF), 10 to the Chhattisgarh Police, 9 to the Odisha Police, 7 to the Maharashtra Police, 3 each to the border guarding forces of Indo-Tibetan Border Police (ITBP) and Sashastra Seema Bal (SSB), and 2 to the Border Security Force (BSF), among others. Eighty-eight personnel have been awarded the distinguished service medal, while 662 have been given the meritorious service medal. Forty-two fire service medals, 37 correctional service medals for police personnel and 51 ‘Jeevan Rakshak Pada’ were also announced. The ‘Jeevan Rakshak’ series of medals are given for meritorious act of human nature in saving the life of a person.

(Source: PIB)

Continued from page 4

without any notice. Canvassing in any form shall disqualify the candidate.

7. The mere fact that a candidate has submitted application against the advertisement and apparently fulfilling the criteria as prescribed in the advertisement would not bestow on him/her the right to be called for interview/considered further for selection process.

8. Any proceedings in respect of any matter of claim or dispute arising out of this advertisement and/or an application in response thereto can be instituted only in Ranchi and courts/tribunals/forums at Ranchi only shall have sole and exclusive jurisdiction to try any such cause/dispute.

9. In case any ambiguity/dispute arises on account of interpretation in versions other than English, the English Version will prevail.

HOW TO APPLY:

Willing candidates should log on to our website http://www.careers.ntpc.co.in or visit the “Careers” section at www.ntpc.co.in for applying. No other means/mode of application shall be accepted. Candidates are required to possess a valid email ID. NTPC will not be responsible for bouncing back of any email sent to the candidates.

Candidate belonging to General/EWS/OBC (NCL) category is required to pay a non-refundable registration fee of Rs. 300/-. The SC/ST/PwBD/XSM category & female candidates need not pay the registration fee.

Payment in offline mode: State Bank of India has been authorized to collect the registration fee, in a specially opened account (A/C No. 39987919993) at CAG branch, New Delhi (Code: 09996), on behalf of NTPC. The candidate has to approach the nearest SBI branch with a printout of the “pay-in-slip” which is available on the application registration portal. The pay-in-slip printed from the portal should only be used for depositing the fee for proper crediting of amount in the allocated account. On receipt of the money, the bank will issue a unique Journal Number and a Branch Code of the bank collecting the money. This journal number and the branch code are to be filled up by the candidate during online registration. NTPC will not be responsible in case a candidate deposits the fee in wrong account.

Payment in online mode: Candidates also have the option to pay the fees online (through Net banking/Debit Card (Rupay Debit Card only)/Credit Card). The online payment option will be available on the website. The candidate is required to make the payment before proceeding for online application. After making successful payment, the Challan number, Bank Reference No., date of payment etc. are required to be filled up in the online application.

Fee once paid will not be refunded under any circumstances. Candidates are therefore requested to verify their eligibility criteria before paying the registration fee. After applying online, candidate is required to download the registration slip generated by the system with unique registration number. Copy of registration slip may be retained by the candidate for future reference. No document is required to be sent to us by post.

It is mandatory that eligible candidates go through the full text of the advertisement and agree to all the conditions given, while applying for the post.

| Commencement of online registration of application | 24.01.2022 |
| Last date for online registration of application | 15.02.2022 |

EN 45/44
TEMPLE ARCHITECTURE IN INDIA

M ost of the art and architectural remains that survive from ancient and medieval India are religious in nature. Today when we say 'temple' in English we generally mean a devalaya, devakula, mandal Kovil, or charshamban or prasada depending on which part of India we are in. A Hindu temple reflects a synthesis of arts, the ideals of dharma, beliefs, values, and the way of life cherished under Hinduism.

The architectural evolution of the Indian temples took place within the rigid frameworks derived entirely from religious thoughtfulness. The underlying principle was to build around the belief that all things are one, everything is connected. Therefore the architect was bound to keep to the ancient primary dimensions and strict configurations, which remained unaltered over the periods of time.

Basic Form of the Hindu Temple

The basic form of the Hindu temple construction is following:

(i) sanctum (garbhagriha, literally 'womb-house'), which was a small cubicle with a single entrance and grew into a larger structure.

(ii) Open court within which there is a square or rectangular hall, each of which is itself a temple in which the garbhagriha is situated, with its own smaller temples. This is the equivalent of the multi-storied temples of South India, the main temple in which the garbhagriha is situated is called a gopura.

(iii) The inner sanctum is similar to the inner sanctum of the South Indian temple, the sanctum is the smallest room.

(iii) The temple is constructed with two or three large walls, each of which is itself a temple in which the garbhagriha is situated, with its own smaller temples. This is the equivalent of the multi-storied temples of South India, the main temple in which the garbhagriha is situated is called a gopura.

(iv) The inner sanctum is similar to the inner sanctum of the South Indian temple, the sanctum is the smallest room.

(v) The temple is constructed with two or three large walls, each of which is itself a temple in which the garbhagriha is situated, with its own smaller temples. This is the equivalent of the multi-storied temples of South India, the main temple in which the garbhagriha is situated is called a gopura.

(vi) The inner sanctum is similar to the inner sanctum of the South Indian temple, the sanctum is the smallest room.

(vii) The temple is constructed with two or three large walls, each of which is itself a temple in which the garbhagriha is situated, with its own smaller temples. This is the equivalent of the multi-storied temples of South India, the main temple in which the garbhagriha is situated is called a gopura.

(ix) The inner sanctum is similar to the inner sanctum of the South Indian temple, the sanctum is the smallest room.

(x) The temple is constructed with two or three large walls, each of which is itself a temple in which the garbhagriha is situated, with its own smaller temples. This is the equivalent of the multi-storied temples of South India, the main temple in which the garbhagriha is situated is called a gopura.

The temple is divided into various sections: the garbhagriha, the mantapa, the annagriha, the garbhabhumi, and the sukhakam. The garbhagriha is the innermost part of the temple, and is usually dedicated to the main deity. The mantapa is the main hall of the temple, and is usually used for festivals and other religious ceremonies. The annagriha is the outermost part of the temple, and is usually used for daily worship.

The main architectural features of an Indian temple are the following:

(i) The temple is usually built in a rectangular shape.

(ii) The temple is usually built on a raised platform or a mandapa.

(iii) The temple is usually built with a shikhara tower, which is the highest part of the temple.

(iv) The temple is usually built with a gopura, which is a large gateway or entrance to the temple.

(v) The temple is usually built with a mandapa, which is a large hall or porch.

(vi) The temple is usually built with a garbhabhumi, which is the innermost part of the temple.

(vii) The temple is usually built with a sukhakam, which is a small chamber or shrine.

(viii) The temple is usually built with a kalasa, which is a water jar.

(ix) The temple is usually built with a kalasha, which is a water jar.

(x) The temple is usually built with a kalasha, which is a water jar.

(xi) The temple is usually built with a kalasha, which is a water jar.

(xii) The temple is usually built with a kalasha, which is a water jar.

(xiii) The temple is usually built with a kalasha, which is a water jar.

(xiv) The temple is usually built with a kalasha, which is a water jar.

(xv) The temple is usually built with a kalasha, which is a water jar.

(xvi) The temple is usually built with a kalasha, which is a water jar.

(xvii) The temple is usually built with a kalasha, which is a water jar.

(xviii) The temple is usually built with a kalasha, which is a water jar.

(xix) The temple is usually built with a kalasha, which is a water jar.

(xx) The temple is usually built with a kalasha, which is a water jar.

(xxi) The temple is usually built with a kalasha, which is a water jar.

(xxii) The temple is usually built with a kalasha, which is a water jar.

(xxiii) The temple is usually built with a kalasha, which is a water jar.

(xxiv) The temple is usually built with a kalasha, which is a water jar.

(xxv) The temple is usually built with a kalasha, which is a water jar.

(xxvi) The temple is usually built with a kalasha, which is a water jar.

(xxvii) The temple is usually built with a kalasha, which is a water jar.

(xxviii) The temple is usually built with a kalasha, which is a water jar.

(xxix) The temple is usually built with a kalasha, which is a water jar.

(xxx) The temple is usually built with a kalasha, which is a water jar.

Principal, Sainik School Chandrapur
Subject: Filling up the Post of “Fire Advisor” in the O/o Director General (FS, CD & HQ) in the Ministry of Home Affairs.

It is proposed to fill up one post of Fire Advisor in the O/o Director General (FS, CD & HQ) in the Ministry of Home Affairs in Pay Level-13 (Rs. 123100-219800) on deputation basis (including short term contract) from amongst Officers of Fire Brigades of Central Government, State Government or Union Territories Administration or autonomous bodies or statutory organisation or Public Sector Undertaking or University or recognised research institute.

1. (i) Holding analogous post on regular basis; or
(ii) with five years’ service in the grade rendered after appointment thereto on a regular basis in pay level in post 12 (Rs. 78800-209200) of pay matrix or equivalent, in the parent cadre or department;
(iii) with ten years’ service in the grade rendered after appointment thereto on a regular basis in pay level in post 11 (Rs. 67700-208700) of pay matrix or equivalent, in the parent cadre or department.

2. Possessing the following educational qualifications and experience:-
   (i) Bachelor’s degree in Fire Engineering from a recognized university or institute.
   (ii) Eleven years’ experience in fire protection or fire prevention or fire fighting or fire training in the fire department of any organisation.

Note 1:- The departmental Deputy Fire Advisor in level 11 (Rs. 67700-208700) of pay matrix with ten years’ regular service in the grade and having the qualifications and experience specified for deputationists shall be also considered along with outsiders and in case he is selected for appointment to the post, the same shall be deemed to have been filled by promotion.

Note 2:- The departmental officials in the feeder category who are in the direct line of promotion shall not be eligible for consideration for appointment on deputation and similarly, the deputationists shall not be eligible for consideration for appointment by promotion.

3. The period of deputation (including short term contract) ISTC (in another ex-cadre post held immediately preceding this appointment in the same or some other organisation or department of the Central Government shall ordinarily not to exceed five years.

4. The maximum age-limit for appointment by deputation (including short-term contract) shall be not exceeding fifty-six years as on the closing date of receipt of applications.

5. The application (in duplicate) through proper channel in the given proforma along with the completed copies duly attested with rubber stamp on each page by an officer not below the rank of Under Secretary for the last five years of the officer who could be spared immediately in the event of their selection may be sent to the Directorate General Fire Service, Civil Defence & Home Guards, East Block-7, Level-7, R.K. Puram, New Delhi-110066 within 60 days from the date of publication of this advertisement. While forwarding the names, an integrity certificate and a certificate that no disciplinary action/proceeding/variation case in either pending or being contemplated against the Officer may also be attached.

6. Those applicants, who have applied against the earlier advertisement published in Employment News dated 16-22nd October, 2021, are required to re-submit their applications.

7. Officers who volunteer and are sponsored by their Ministry/Department/State Government/UTs Administration, etc., for the post will not be permitted to withdraw their names later.

8. The vacancy circular along with other details are also available at www.dgfschq.gov.in.

THE CERTIFICATE TO BE GIVEN BY THE EMPLOYER/CADRE CONTROLLING AUTHORITY

The information/details provided in the above application by the applicant are true and correct as per the facts available on records. He/she possesses educational qualifications and experience mentioned in the advt. If selected, he/she will be relieved immediately.
Prime Minister Shri Narendra Modi led the nation in paying solemn tributes to the fallen heroes by laying a wreath at the National War Memorial. Thereafter, the Prime Minister and other dignitaries headed to the saluting dais at Rajpath to witness the Republic Day Parade. As per tradition, the National Flag was unfurled followed by the National Anthem with a booming 21-gun salute.

Special spectators
Special arrangements were made to give opportunity to three segments of society which usually do not get to watch the parade. Some sections of auto-rickshaw drivers, construction workers, sanitation workers and frontline health workers were invited to watch the Republic Day Parade.

THE PARADE
The parade commenced with President Shri Ram Nath Kovind taking the salute. The parade was commanded by Parade Commander, Lieutenant General Vijay Kumar Mishra, Ataman, Seva Medal, Major General Arvind Kacker, Chief of Staff, Delhi Area was the Parade Second-in-Command. The parade commanders were followed by the pride of awarness of the highest gallantry awards. They included the winners of Param Veer Chakra and Ashok Chakra, Indian Army Veterans.

First in the list was the 61 Cavalry led by Major Mitunagpur Singh Chauhan. The 61 Cavalry is the only active serving horse Cavalry Regiment in the world. The 61 Cavalry, followed by 14 Mechanized Columns, six marching contingents and a fly past by Advanced Light Helicopters (ALH) of Army Aviation. One T-90 B Tank, 74 Carriages (On Track Tram), 1 x 250 BMM, 1 x APC TOPAS & BMP-2 (On Track Transporter) & 2 BMPs, 1 x 750 Towed Gun (On Vehicle), 1 x 2000 Gun System, 1 x 2000 Bridge and 2 x Janwala Bridge System, 1 x HT-16 (On Vehicle) and 2 x Striling Shakti Electronic Warfare Systems, one 300mm Rocket System, and one Aircraft launched Weapons System onboard the aircraft participated in the parade.

The parade contingents displayed the evolution of uniform and personnel weapon of Indian Army over the last 75 years. The contingent of the Regimental Regiment were the uniform of Indian Cavalry of 1947 and carried the 303 Rifle. The Assam Regiment wore the uniforms of 1982 and carried 303 Rifles. The Jammu and Kashmir Light Regiment were in the uniform worn during 1947 and carried 7.62 mm self-loading Rifle. The contingent of the Sikh Light Regiment and the Army Police Corps were the present day uniforms with 5.56 mm INSAS Rifle. The contingent of the Para Commandos displayed the new Combat Uniform of Indian Army, unveiled on January 15, 2022 and carried the 5.56 mm x 45mm 7.62mm Rifle.

Indian Navy Contingent
The Naval contingent comprised 96 young sailors and four officers led by Lt Cdr Anshul Sharma as Contingent Commander. This was followed by the Naval Tableau which designed with the aim to showcase the multi-dimensional capabilities of the Indian Navy and highlight the key indices under ‘Aatmanirbhar Bhataan’. The forward part of the tableau depicted the Naval Upgrading of 1946, which contributed in India’s struggle for independence. The rear section illustrated the ‘Make in India’ initiatives of the Indian Navy from 1983 to 2021. A model of New Vizant was flanked by models of indigenously designed and built warships.

Indian Air Force Contingent
The Indian Air Force contingent comprised of 96 airmen and four officers and was led by Squadron Leader Prachi Swamyantilal. The Air Force tableau was titled ‘Soul of Indigenous Developed Sensors, Weapons and Electronic Warfare Systems for LCA ‘Tejas’ and Air Independent Propulsion System’ developed for the submarines of Indian Navy.

The first tableau displayed an indigenously developed Air-Launched Scramble Air Rapier, five different aerial launched weapons and an Electronic Warfare Jammer to further enhance the capabilities of generation four LCA (Light Combat Aircraft) Tejas. The second tableau showcased indigenously developed AIP System for propelling the Indian Naval submarines underway.

Contingent of IGS, CAPF and Delhi Police
The Indian Coast Guard (ICG) contingent with the theme ‘Steady, Relevant and Responsive’ was led by Deputy Commissioner H T Manjunath. This was followed by the marching contingents of Central Reserve Police Force (CRPF), led by Assistant Commissioner Ayyasamy Malik, 15 times winner of best marching contingent; Delhi Police, led by Assistant Commissioner of Police Vivek Bhagaw; Central Industrial Security Force (CISF) commanded by Assistant Commandant Mohsin Bagar; Sasthra Seema Bal (SSB) led by Deputy Commandant Neeraj Kumar and Border Security Force (BSF) Kamal Contingent headed by Deputy Commandant Manohar Singh Khesarias also marched past the saluting dais. The National Cadet Corps (NCC) Boys, marching contingent, comprising of 100 Senior Division cadets, was led by Senior Under Officer Rupendra Singh Chauhan of the Punjab Directorate. Senior Under Officer Pramita of Karnataka Directorate headed the NCC Girls marching contingent, consisting of 100 Senior Wing Cadets drawn from all 17 Directorates. The marching contingent of National Service Scheme (NSS), comprising of 100 volunteers, was headed by Basarad Saidi Ramesh from Diu Union Territory, Ahmedabad Directorate.

TABLEAUX
12 States/Union Territories and 9 Ministries/Departments showed their tableaux on various themes under ‘Azadi ka Amrit Mahotsav’. The tableau was followed by cultural performances by 490 dancers drawn through ‘Vande Bharatam’ and a motorized display by Sema Bhawani Motorcycle Team of BSF and Himavans of Inco-Titoli Border Police (ITBP).

THE FLY PAST
The grand finale was the most spectacular segment of the parade, the Fly Past, for the first time, witnessed 75 ultrahigh-altitude balloons of the Indian Air Force displaying a number of formations, as part of ‘Azadi ka Amrit Mahotsav’. Vintage as well as current air-crafts/helicopters like the newly-acquired, Rafale, Sukhoi, Jaguar, Mi-17, Seerang Apache and Dakota displayed different formations, including Rahat, Megha, Ekikaya, Tiru, Tiranga, Vijay and Amrit. The ceremony culminated with the national anthem and the release of Tri-colour balloons. For the first time IAF coordinated with Doordarshan to show conduct videos during the fly past.

3. COMPENSATION PACKAGE:

The company offers attractive compensation package comprising Basic Pay, Dearness Allowance, HRA, Cafeteria Allowance, Performance Related Pay (PRP), Medical Facility, Social Security Benefits including PF, Pension, Gratuity etc. as per rules in force from time to time.

4. PLACEMENT:

Candidates will be placed at Projects / Power Stations/ Offices including Joint Ventures & Subsidiary Companies of NHPC in various parts of the country or abroad.

5. APPLICATION FEES:

Candidates belonging to General, EWS & OBC category are required to pay a non-refundable fee of Rs. 295/- (including GST @ 18%) through online mode. SC/ST/PwBD/Ex-Service candidate category candidates need not pay the application fee. For once paid, it will not be refunded under any circumstances. Candidates are therefore requested to verify their eligibility & correctness of information on Application Form before paying the application fee.

Steps for applying:

Step-1: Visit to www.nhpcindia.com & apply through online application portal available in the section "Careers" with us. A Candidate must possess valid E-mail id and mobile number which shall be active throughout the process as required for any further notification.

Step-2: Refer all instructions given on the website to ensure your eligibility before applying.

Step-3: Fill the Online application form with relevant details and submit. After successful submission an unique application ID (Registration No.) shall be generated by the system which shall be kept and used for further communication.

Step-4: Scanned copies of following documents should be kept ready by the candidate before applying online registration for attachment:

- Matriculation/secondary school certificate as proof of Date of Birth
- Complete set of mark sheet certificates in support of qualification
- Certificate in format prescribed by the Government of India. In case of OBC candidates the community certificate should have been issued within last 06 months for OBC (if applicable) at the time of registration.
- Disability certificate issued by Competent Authority (if applicable)
- A certificate for conversion of Grades/ CGPA to percentage of marks shall be based on the procedure certified by the university/Institution from where they have obtained the professional qualification.

Step-5: Upload/Submit the photograph and signature as per instructions given on the online application portal.

Step-6: Registration fee (as applicable) shall be paid through online payment generated by the system with Unique Application ID for future references.

Application registered without incomplete documents uploaded shall be summarily rejected even though registration number has been generated. Candidate should not send any documents/certificates or print out of Registration slip/form through post. In case of failure of online payment, NHPC shall not be responsible. Application with successful payment shall be considered only.

6. SELECTION PROCESS:

The candidates registered online with NHPC and have filled all the requisite information in conformity with eligibility criteria shall be provisionally allowed to appear for Computer Based Online Test. Based on merit of Online Test, the final selected candidates will be offered the appointment.

7. TEST CENTRES:

The Computer Based Test/Online Test will be held in 22 Cities* as mentioned in the Online Application system. Candidates have to select preferred examination city limited to three choices) from the given list of exam centres in the Online application form. However, NHPC reserves the right to cancel or add any Centre depending on the response of the candidates for that Centre. Admission to the test centre will be on production of E-Admit Card which is to be downloaded only from our website by candidates.

</tr>
</tbody>
</table>

**General Conditions:**

- Only candidates possessing the above-mentioned qualifications need to apply. All the qualifications acquired should be from recognized Universities/Institutions. Candidates working in Government/Public sector undertaking/autonomous bodies should apply through proper channel.
- Upper Age Limit: 28 years as on the closing date of receipt of applications. The upper age limit shall be relaxable to the candidates belonging to Scheduled Castes, Scheduled Tribes and OBC as per Government of India norms. The closing date of receipt of applications shall be 15 days after publication of this Advertisement in Employment News.
- How to apply: Candidates should download and fill the Application Form in the prescribed format (available on the ‘what’s new’ section of the website www.drdo.gov.in). The signed Application Form along with certificate in support of minimum educational qualification, matriculation certificate/ birth certificate in support of date of birth, GATE NET Score card (if applicable), valid as on closing date of application, caste certificate (if applicable) should be scanned in a single PDF file [File name should be: Subject Code_Your Name_Date of Email] and emailed to hrd@debel.drdo.in, before the closing date. Incomplete/partially filled applications are liable to be rejected.
- Screening of the applications will be carried out by a duly constituted Screening Committee and the shortlisted candidates will be interviewed through web-based video conference over internet and the schedule of interview will be intimated beforehand via email. Therefore, the candidates should possess an active email ID and check the same periodically till the selection process is completed. Only candidates shortlisted by the Screening Committee will receive communication for further selection procedure. Canvassing in any form will result in disqualification of candidate.
- Candidates should ensure Internet connectivity, Webcam, and necessary software at their end to attend the online interview through video conference and

**DEBEL shall not be responsible for any connectivity failure or communication faults during the online interview.**

- Based on the online interview, a Panel of candidates for the anticipated vacancies will be drawn and the Panel would operate for a period of one year. However, the mere fact of empanelment will not entitle any candidate to an offer of Fellowship, which is contingent upon occurrence of vacancies during the year and actual number of vacancies may vary as per Organisational requirement. Director, DEBEL reserves the right not to select any candidate, if suitable candidates are not available.
- The Fellowships shall be awarded initially for a period of two years (extendable as per rules), with monthly emoluments of Rs. 31,000/- plus House Rent Allowance as admissible under the rules.
- It may be noted that offer of Fellowship does not confer on Fellows any right for absorption in DRDO.
- Candidates presently employed in Government Departments/PSUs/Autonomous Bodies will be required to produce NOC at the time of interview.
- Antecedents of candidate will be verified again at the time of joining, if selected.
- The selected candidate(s) may be allowed to register for PhD as per extant regulations with any recognized University/Institution during the tenure of fellowship.

**Biodata to be typed in the format enclosed and submitted. Those filled by hand will be summarily rejected.**

EN 45/65

Pictorial Book on India’s Women Unsung Heroes of Freedom Struggle

A Pictorial book on India’s Women Unsung Heroes of Freedom Struggle was released by Union Minister of State for Culture Smt. Meenakshi Lekhi on 27th January in New Delhi as part of Azadi ka Amrit Mahotsav. The book has been published by Ministry of Culture in partnership with Amar Chitra Katha which is a household name in India. The book celebrates the lives of some of the women who led the charge and lit the flame of protest and rebellion throughout the country. It contains the stories of queens who battled colonial powers in the struggle against imperial rule and women who dedicated and even laid down their lives for the cause of the motherland.

On the occasion, Minister Smt Meenakshi Lekhi said that if we go through the glorious past of Indian history, we find that the Indian culture was the one which celebrated women and there was no place for gender discrimination. This is amply evident from the fact that women had the courage and physical strength to fight like soldiers in the battlefield. Narrating the tales of valor of some of the unsung women heroes included in the book, the Minister said that women were equally vocal in expressing dissent against imperial powers. For example Rani Abbaia repulsed the Portuguese attacks for several decades. However, history has hardly been written with this perspective and now as part of Azadi ka Amrit Mahotsav, the sacrifices of these unsung heroes will be brought to light. The movement to gain India’s Independence brought together millions of people from every walk of life in protest of the colonial rule. However, we all know only few legendary, iconic leaders of the freedom struggle. In view of this, as a part of the Azadi Ka Amrit Mahotsav commemorating 75 years of India’s Independence, the Government of India has decided to recall and remember forgotten heroes of our freedom struggle, many of whom might be renowned yet unknown to the new generation.

Ministry of Culture has decided to release pictorial books on 75 Unsung Heroes of the Freedom Struggle in partnership with Amar Chitra Katha. The second edition, which is under process, will be on 25 unsung tribal freedom fighters. The third and final edition will be of 30 unsung heroes drawn from other areas.

**eGCA: An Innovative Step Towards Digital India**
- e-Governance in Directorate General of Civil Aviation (eGCA) was launched on 11 Nov 2021 with an aim of bringing about ease of doing business, transparency and automation of the processes and functions of DGCA.
- Under this initiative, services provided to various DGCA stakeholders such as Pilots, Aircraft Maintenance Engineers, Air Traffic Controllers, Air Operators, Airport Operators, Flying Training Organizations, Maintenance and Design organizations etc. are now available on the eGCA.
- Around 300 services of the eGCA have been implemented.
- This single window platform will eliminate operational

Out of above, 25 posts are further reserved for Ex-servicemen, 08 posts in Group C & 17 posts in Group D. For exact number of vacancies and reservation, please refer to our website notification at www.iocl.com or https://plaps.indianoil.in.

QUALIFICATION REQUIREMENT:

1) Engineering Assistant Grade IV- 3 years (or 2 years through lateral entry after ITI of Minimum 1 year duration/10+2) full time Diploma in Engineering in respective Discipline

PAY AND PERK:

1) Engineering Assistant (Grade IV) - Pay Scale: Rs. 25000-105000.
2) Technical Assistant (Grade I) - Pay Scale: Rs. 23000-78000.
3) Basic Pay, D.A., HRA and such other benefits shall be admissible as per the rules of the Corporation.

APPLICATION FEES:

1) Candidates belonging to General, EWS and OBC categories are required to remit Rs. 100/- as application fee.
2) The fee is to be paid through online mode only.
3) SC/ST/PwBD candidates are exempted from payment of application fee.

SELECTION METHODOLOGY

Selection process would consist of Written Test and Skill/Proficiency/Physical Test (SPPT). The SPPT shall be qualifying in nature. Merit List will be prepared on the basis of marks scored in the written test. Candidates have to secure a minimum of 40% marks in Written Test to qualify for SPPT. For SC/ST/PwBD candidates, minimum qualifying marks shall be 30% against the reserved posts only.

For detailed notification, please visit www.iocl.com in the section Indian Oil For You->Indian Oil For Careers->Latest Job Openings. The last date for receipt of online applications at https://plaps.indianoil.in is 18.02.2022.

All future announcements shall be published only in IOCL website at www.iocl.com. It shall not be made available on any other website/medium. Candidates are advised to visit IOCL website from time to time for updates on the above notification.

MAKING INDIA A GLOBAL DRONE HUB

equipped with bulky and expensive hardware, which is neither feasible nor advisable. This requires the creation of a separate, modern, primarily software-based, automated UAS Traffic Management (UTM) system. Such systems may subsequently be integrated into traditional ATMs.

The aim of National Unmanned Aircraft System Traffic Management (UTM) Policy Framework is to lay down a policy framework for enabling high density, complex unmanned aircraft operations in Very Low Level Indian airspace. This framework has defined the overall architecture of the UTM ecosystem and has recognised various stakeholders and their primary responsibilities. The operational scenarios, standards, business rules and technical requirements for UTM systems are evolving across the world. The Central Government plans to carry out an evidence-based policy formation for enabling UTM systems in India. The key steps involved therein are as follows.

a) The Central Government will publish a Request for Expression of Interest (RFOEI) for UTM experiments.

b) The duration of such UTM experiment will not exceed six months.

c) The experiments will be outcome-based and each participating UTMSW will propose recommendations as per the RFEOI requirements.

d) The experiments will provide an opportunity for participating UTMSW to conduct sample integration with the DigitalSky Platform.

Question: The value chain of the drone sector comprises hardware, software and service delivery. What kind of employment generation are we looking at in these domains?

Amber Dubey: Thanks to the liberalised drone rules and the PLI scheme, the drones and drone components manufacturing industry may see an investment of over INR 5,000 crore over the next three years. The annual sales turnover of the drone manufacturing industry may grow from INR 60 crore in 2020-21 to over INR 900 crore in FY 2023-24. The drone manufacturing industry is expected to generate over 10,000 direct jobs over the next three years.

The drone-based service delivery industry (operations, logistics, data processing, traffic management etc.) is far bigger in scale than the drone manufacturing industry. It is expected to grow to over INR 30,000 crore in next three years and generate over five lakh jobs in three years.

Question: Do you think it is necessary to ensure industry-academia connect in order to prepare skilled manpower for this sector? What efforts are being made on this front?

Amber Dubey: A close connect between Government, regulators, industry and academia is extremely important in any sector, especially one that is so technology-driven like drones. The fact that the UAS Rules, 2021 (notified in March 2021) were repealed in merely five months and replaced by the highly liberalised Drone Rules, 2021 (in August 2021) shows the close collaboration between the Government, industry and academia. Leading academic institutions are helping the drone industry by way of cutting edge research projects and by providing incubator facilities to drone startups at a very low cost. Examples include the swarm drone projects at IIT Delhi and IIT Kanpur, drone taxis at IIT Madras, petrol-engine based agridrones at Anna University etc. Most of the leading drone companies like IdeaForge, Aarav, Marut etc. are products of the incubation programs at leading academic institutions of India. This trend will grow multifold with time.

(The interviewee is an Officer of Press Information Bureau, Government of India).
INDIA’S REGULATORY LANDSCAPE FOR COMMERCIAL USAGE OF DRONES

In March 2021, the Ministry of Civil Aviation (MoCA) published the UAS (Unmanned Aircraft Systems) Rules, 2021. They were perused by the academicians, Start-Ups, drone users and other stakeholders as being restrictive in nature as they involved complex paperwork, required permissions for every drone flight and very few “free to fly” green zones were available. Based on the feedback, the Government decided to repeal the UAS Rules, 2021 and replace them with the liberalised Drone Rules, 2021. The government estimates that the drone and drone components manufacturing industry may see an investment of over Rs. 5,000 crore over the next three years. The annual sales turnover of the drone manufacturing industry is projected to reach Rs. 9,000 crore in FY 2023-24, generating over 10,000 direct jobs over the next three years.

DRONE RULES, 2021

Forms, Fees and Approvals
- As compared to 25 forms that were mandatory earlier, anyone seeking to operate drones now needs to fill only 5 forms.
- Total number of fees to be paid has been reduced to just 4 as compared to 72 earlier.
- The quantum of fees, which was earlier linked to the size of drone, has been reduced and delinked from the size.
- The ambit of these rules has been increased to cover drones up to 50 kg in weight from 300 kg earlier, thereby bringing drone taxis under the fray too.
- The following approvals are no longer required:
  - Unique Authorization Number
  - Unique Prototype Identification Number
  - Certificate of Manufacturing and Airworthiness
  - Certificate of Performance
  - Certificate of Maintenance
  - Import Clearance
  - Acceptance of Existing Drones
  - Operating Certificates
  - Authorisation of R&D Organisation
- DRONE PILOT LICENSE
- DGCA (Directorate General of Civil Aviation) prescribes drone training requirements, oversees drone schools and provides pilot licenses online.
- Remote pilot license is issued by DGCA within 15 days of the pilot receiving the remote pilot certificate from the Certification and Unique Identification Number.
- Nano and model drones (made for research or recreation purposes) are exempt from Type Certification.
- Easier process has been specified for transfer and deregistration of drones.

Through the DigitalSky platform, the Ministry of Civil Aviation (MoCA) further liberalised the drone certification scheme (DCS) on 26 January 2022 with the aim to make type-certification of drones simpler, faster and transparent. Key features of the scheme are:
- Indigenous manufacturers, assemblers and importers will have to submit data and test results on drone weight, type of launch and recovery mechanism installed, speed, range, endurance, battery performance, the material used in construction.
- The application can be submitted on the DigitalSky platform.
- The certification will be overseen by the Quality Control India (QCI) and aided by a multi-stakeholder steering committee.

The process will now ensure minimum requirements for airworthiness—safety and security requirements for drones.
- This will encourage enthusiasts to undertake the development and manufacturing of the five varieties of drones in India—a boost to the phenomenal success Make in India campaign.

SECURITY CLEARANCE
- Earlier, prior to issuance of a registration or licence, a security clearance was necessary. Now, security clearance has been done away with.
- Foreign companies are now allowed to operate drones in India.
- Import of drones will continue to be regulated by the Directorate General of Foreign Trade.
- Industry will have to comply with safety and security features like ‘No Permission—No Takeoff’ (NPNT), real-time tracking beacon, geo-fencing etc. notified from time to time.

DRONE AIRSPACE MAP
India’s airspace map for drone operations was released on 24 September 2021. The map is available on DGCA’s digital sky platform https://digitalsky.dgca.gov.in. Key features of the map are:
- Interactive map that demarcates the Green, Yellow and Red Zones across the country.
- Green zone is the airspace up to 400 feet, not been designated as a red or yellow zone; and up to 200 feet above the area located between 6-12 km from the perimeter of an operational airport.
- In green zones, no permission whatsoever is required for operating drones with an all-up weight up to 500 kg.
- Yellow zone is the airspace above 400 feet in a designated green zone; above 200 feet in the area located between 6-12 km from the perimeter of an operational airport and above ground in the area located between 5-8 km from the perimeter of an operational airport.
- Drone operations in yellow zone require permission from the concerned air traffic control authority – AAI, IAF, Navy, HAL etc. as the case may be.
- Red zone is the ‘no-drone zone’ within which drones can be operated only after a permission is taken from the Central Government.
- The airspace map may be modified by the concerned authorities or the entities from time to time.
- Anyone planning to operate a drone should mandatorily check the latest airspace map for any changes in zone boundaries.
- The drone airspace map is freely available on the digital sky platform to all without any login requirements.

PLI SCHEME
The Central Government approved the Production-Linkage Incentive (PLI) scheme for drones and drone components in September 2021. The PLI scheme along with the new drone rules are intended to catalyse super-normal growth in the drone sector. Key features of the scheme are:
- The total amount allocated for the PLI scheme for drones and drone components is Rs. 120 crore spread over three financial years. This amount is nearly double the combined turnover of all drone manufacturers in FY 2020-21.
- The incentive for an enterprise manufacturing drones and drone components shall be as high as 20% of the value addition made by it.
- The Government has agreed to keep the PLI rate constant at 20% for all three years, an exceptional treatment given only to the drone industry. In PLI schemes for other sec-

Continued on page 37
INDIA'S REGULATORY LANDSCAPE FOR COMMERCIAL ...

- The Government has agreed to fix the minimum value addition norm at 30% of net sales for drones and drone components instead of 50%, another exceptional treatment given to the drone industry. This will allow widening the number of beneficiaries.
- The value addition shall be calculated as the annual sales revenue from drones and drone components (net of GST) minus the purchase cost (net of GST) of drone and drone components.
- The PLI scheme covers a wide variety of drone components: Airframe, propulsion systems (engine and electric), power systems, batteries and associated components, launch and recovery systems, Inertial Measurement Unit, Inertial Navigation System, flight control module, ground control station and associated components; Communication systems (radio frequency, transponder, satellite-based etc.); Cameras, sensors, spraying systems and related payload etc.; 'Detect and Avoid' system, emergency recovery system, trackback, and other components critical for safety and security.
- The list of eligible components may be expanded by the Government from time to time, as the drone technology evolves.
- The Government has agreed to widen the coverage of the incentive scheme to include developers of drone-related IT products.

A contingency expenditure of Rs 6000 per hectare would be provided to implementing agencies that do not want to purchase drones but will hire drones for demonstrations from Custom Hiring Centres, Hi-tech Hubs, Drone Manufacturers and Start-Ups.

DRONES IN AGRICULTURE

In a major boost to promote precision farming in India, the Union Ministry of Agriculture and Farmers Welfare issued guidelines on 22nd January 2022 to make drone technology affordable to the stakeholders of this sector. Key features of the guidelines are:
- Upto 100% of the cost of agriculture drone or Rs. 10 lakh, whichever is less, as grant for purchase of drones by the Farm Machinery Training & Testing Institutes, ICAR institutes, Krishi Vigyan Kendras and State Agriculture Universities for taking up large scale demonstrations of this technology on the farmers’ fields.
- The Farmers or Producers Organizations (FPOs) would be eligible to receive grant up to 75% of the cost of agriculture drone for its demonstrations on the farmers’ fields.
- The new CHCs or the Hi-tech Hubs that will be established by the Cooperative Societies of Farmers, FPOs and Rural entrepreneurs with financial assistance from SMAM, RKVY or any other Schemes can also include drone as one of the machines along with other agricultural machines in the projects of CHCs/Hi-tech Hubs.
- Agriculture graduates establishing Custom Hiring Centers would be eligible to receive 50% of the basic cost of drone and its attachments or up to Rs. 5 lakhs in grant support for drone purchases.
- Rural entrepreneurs should have passed class tenth examination or its equivalent from a recognized Board, and should have remote pilot license from Institute specified by the Director General of Civil Aviation (DGCA) or from any authorized remote pilot training organization.

The subsidized purchase of agriculture drones for CHCs/Hi-tech Hubs will make the technology affordable, resulting in their widespread adoption. This would make drones more accessible to the common man in India and will also significantly encourage domestic drone production.

The Department of Agriculture & Farmers Welfare also brought out a Standard Operating Procedures (SOPs) for use of Drone application with pesticides for crop protection in agricultural, forestry, non-cropped areas, etc. and for Drone Application in Spraying for Soil and Crop Nutrients. The demonstrating institutions and all the providers of agricultural services through drone application have to comply with these rules/regulations and SOPs. Compiled by EN Team. (Source: PIB/AIR/DGCA/Invest India)

TEMPLE ARCHITECTURE IN INDIA

Shaped stupika. It is in this temple that one notices for the first time two large gopuras (gateway towers) with an elaborate sculptural programme which was conceived along with the temple.

The Decan

Many different styles of temple architecture, influenced by both North and South Indian temples, are found in regions like Karnataka. This hybridised style, that seems to have become popular after the mid-seventh century, is known in some ancient texts as vesara. The hybridisation and incorporation of several styles was the hallmark of Chalukyan buildings. The most elaborate of all Chalukyan temples at Pattadakal made in the reign of Virakamiti II is Virupaksha temple. At the same time, the Durga temple at Ahole is unique having an even earlier style of an apsidal shrine which is reminiscent of Buddhist chaitya halls and is surrounded by a veranda of a later kind, with a shikhara that stylistically like a nagara one.

By about 750 CE, the western Chalukya control of the Decan was taken by the Rashtrakutas. Their greatest achievement in architecture is the Kailasnath temple at Ellora, a culmination of at least a millennium-long tradition in rock-cut architecture in India. It is a complete dravida building, with a gopuram-like gateway, surrounding cloisters, subsidiary shrines, staircases and an imposing tower or vimana rising to thirty metres. And all of this is carved out of living rock. Also found in Karnataka are temples built by the Hoyasalas. The most characteristic feature of these Hoyasalas' temples is that they have several projecting angles emerging from the previously straightforward square temple, such that the plan of these temples starts looking like a star (also known as a stellate-plan). These temples were made out of soapstone.

Buddhist and Jain Architectural Developments

The Mahabodhi Temple at Bodhgaya (Bihar) is an important reminder of the brickwork of that time. The design of the temple is unusual - neither dravida or nagara. It is narrow like a nagara temple, but it rises without curving, like a dravida one. The sculptural art of Nalanda, in stucco, stone and bronze, developed out of a heavy dependence on the Buddhist Gupta art of Samath. The Nalanda sculptures initially depict Buddhist deities of the Mahayan pantheon, such as standing Buddhas and bodhisattvas. Jains were prolific temple builders like the Hindus, and their sacred shrines and pilgrimage spots are to be found across the length and breadth of India except in the hills. The oldest Jain pilgrimage sites are to be found in Bihar. The Jain temples at Mount Abu were constructed by Viral Shah. Notable for a simple rectangular form in contrast with the exuberant marble interiors, their rich sculptural decoration with deep undercutting creates a lace-like appearance. The temples are famous for their unique patterns on every ceiling, and the graceful bracket figures along the domed ceilings.

CAREER OPPORTUNITIES IN DRONE SECTOR

Training from a training centre approved by the Directorate General of Civil Aviation (DGCA). Upon completion of the training and upon submission of required documents, you will be registered as a ‘Remote Pilot’ with a ‘Pilot Identification Number’ as well as an ‘Unmanned Aircraft Operator Permit’.

Eligibility: You need to be 18 years of age and have a 10th pass certificate. You will also have to clear a medical examination as specified by the DGCA, and a background check. The maximum age limit for a remote pilot licence for commercial activities is 65 years. No pilot licence is required for flying small drones and micro drones for non-commercial use. But to operate any other type of drone you need to get a licence and training.

Duration: The duration of courses varies according to the types of drones you want to operate. Most drone training programs last for two weeks to two months. Longer training is needed to own a drone. The training institutes provide all necessary training kits, including the drone.

Training Institutes: Currently, there are 8 training centres authorised by the DGCA in India from where one can study and get trained in drone technology:
- Alchetron Aviation Pvt Ltd, Jamshedpur
- Ambitions Flying Club Pvt Ltd, Aligarh
- Flytech Aviation Academy, Secunderabad
- Indira Gandhi Rashtriya Udaan Academy, Amethi
- Pioneer Flying Academy Pvt Ltd, Aligarh
- Redbird Flight Training Academy Pvt Ltd, Baramati
- The Bombay Flying Club, Mumbai
- Telangana State Aviation Academy, Hyderabad

Courses: Courses on unmanned aerial vehicles (UAVs) design introduce the design and sizing process in simulated conditions, stability analysis and prototype testing for UAV technology. Add to that, the course provides a course on UAV design.

Software Engineers: To effectively fit in various industries, there has been an increased development of software for drones. By integrating image optimization software and machine learning with drone technology, operators can inspect assets in real-time quickly and efficiently. Software development team include industry-specific technology specialists who create custom drone software solutions for use in construction, agriculture, land surveying, media, aviation, real estate, mining, forestry, and other drone mapping services fields. The most common type of software used in the drones include drone mapping software, drone inspection software, drone swarm software (facilitates simultaneous controlling of more than one drones for purposes such as mission-based or choreographed aerial light shows), enterprise drone solutions for data analysis, software for AI capable collision avoidance and landing calibration, photogrammetry software that transforms imagery into maps and 3D digital terrain models into custom drone surveying solutions. In addition to this, all enterprises engaged in the drone business have their internal Program Software Management as a manufacturing plan is a complex operation.

Drone-based applications being explored in India

Source: PWC India

Drone software solution for so many functions as possible - work ordering, resource management, flight planning and tracking, program reporting, compliance and data management - helps the company streamline operations and manage their program more efficiently. Therefore, software developers and software maintenance and support staff play a crucial role in the drone industry.

Maintenance & Repair Staff: For a drone-wise investor in drone business, having a structured drone maintenance and repair setup will eliminate many potential safety hazards in the field, reduce unproductive downtime due to malfunctioning equipment, and lessen instances of poor quality data acquisition. Maintenance staff handle procedures ranging from preflight inspection to internal aircraft inspection to bench testing to complete overhauls, dictating the frequency with which these should occur.

Data Processors & Analysts: There are many different ways to use drone data. Sometimes, simply capturing a few pictures and reviewing them on-site is all that is required. But, to get the most value out of drones, many images need to be captured and have them processed and analyzed. In other words, a company needs to create a data product. There are many different data products. In some cases, a company uses industry-specific software platform and an internal data team to process and analyze the data. In other cases, they will send the captured data out to a third party. The role of data analysts is to create such data products by properly organizing and uploading the data collected by the drone for processing. Depending on the type of inspection, data may be organized by location, mission, flight number, and/or an asset identifier system (for example, solar fields may use row numbers; wind farms may use turbine and blade numbers, etc.). Such data may be saved to a cloud storage system and shared with the client.

Drone Operations Manager: Most companies will designate someone to lead the charge, be an internal champion, and most importantly, manage the many aspects of the program. Depending on the size of the organization and how it is structured, this can be one person from a central location, or it can be several people managing operations in their region. Typically, this would be the Drone Operations Manager who is responsible for ensuring all the functions of the program are running smoothly, whether accomplished in-house or outsourced. The Drone Operations Manager must be an excellent communicator as the job will require coordination between many different parties. Also, the ability to respond to emergency situations and high-pressure events is important. Managing a corporate drone program requires the coordination, oversight, and execution of a wide range of tasks and functions. The Drone Ops Manager will work with a team that might include full-time and/or contract pilots, trainers, drone engineers, and data analysts, among others.

Drones have recorded increased adoption in the recent years owing to their widespread capabilities—from simple photography to surveillance, traffic, roads and railway lines and even delivering essentials to customers and to remote locations. Moreover, even amid the ongoing COVID-19 pandemic, drones played a crucial role in carrying out a host of activities—from surveillance and sanitization to temperature checks and public broadcasting—across the country. This not only helped in minimising the risk of virus spread, but also helped authorities in ensuring the safety of healthcare workers who could not travel. Moreover, the liberalised norms have helped in increasing the application of drones that were previously limited to government agencies alone. With this, more companies and startups have geared up their investments in this sector. India is focusing more on being ‘Aatmanirbhar’ (self-reliant). With the waiver of pilot licenses in certain categories, reduced formalities; launch of new drone corridors and incentivising local manufacturing, the future could change the scenario across various sectors in the country as well as generate large-scale employment opportunities.

BEST ENTRY FOR ISSUE DATED 15-21 JANUARY 2022

Question: Tell us how accessible your neighborhood / workplace / institution is for Divyangjans and what more could be done to make it more accessible?

ANKUSH TANEJA
Pawanpuri Bikaner, Rajasthan

It does not make sense to exclude such a big part of the population simply when just a few structural changes can allow them to be a productive and contribute to the society like any other person. The law also requires non-discriminatory attitude towards persons with special needs.

The following measures can be helpful in fulfilling this objective

- Begin with an equal opportunities policy.
- Right to Education is to be made more effective in terms of ensuring inclusiveness.
- For proper implementation of inclusive education in schools, the differently abled students should not be looked at sympathetically rather they should be recognized by their talents, capabilities and abilities.
- Parents are to be made partners in the education system so that a collaborated effort would result in effective and inclusive education. Sincere efforts should be made to develop good relations among families of students. In this way, both types of students i.e, with or without disabilities, will develop good relation among themselves. It will be helpful in creating an inclusive environment.
- Allocate responsibility for creating and maintaining necessary facilities at public places.
- Create a safer work environment.
- Have an accessible digital entrance.
- Collaborate with disability consultants.
- Make amenities and utility services accessible.
- Enhance facilities at Airports, Railway stations and in public transport.
- Enhance access to public documents and websites so that they meet internationally recognized accessibility standards.
- Create a pool of sign language interpreters.
- Daily captioning and sign language interpretation of public television news programmes.

TUSHAR MAHATO
Dwarka, Delhi

One can be born with a disability, or one can acquire a disability due to illness, accident or a man-made tragedy like a terror attack or a physical confrontation.

Very often, people get disabled during natural disasters, strokes or even while serving the Armed Forces. Hence, disability is a reality and it is not as rare as it often seems.

Ways we can make our workplace accessible and inclusive to people with disabilities:

a) An Equal Opportunity Policy will act like a guideline. It’ll give us a well-defined set of do’s and don’ts in our daily life, infrastructure management, redressal system etc.

b) It is often difficult to implement far-reaching plans without allocating responsibility. There should be a responsible incumbent for maintaining an accessible and inclusive environment at the workplace and people should know whom to approach in case there is a problem.

c) The staff is a big part of creating an accessible and inclusive environment at workplace in any establishment. It is the staff that will be mostly interacting with people with disabilities. It may help to partner with accessibility and inclusion consulting organization that has horizontal as well as vertical experience delivering high-quality accessibility and inclusion training to organizations and businesses.

d) People with disabilities are more prone and vulnerable in case the working environment is unsafe. If we have a retail store, one should be free to keep walking floor space in the aisles free of obstacles. Instruct staff to avoid leaving boxes and crates just about everywhere. Make sure there are no protruding objects a person with visual impairment can run into.

Creating an accessible and inclusive environment will have a long-term impact at the workplace or in public spaces. Structural changes are important and with little planning and investment, they can be implemented without much problem.

EN 45/40
PM unveils hologram statue of Netaji at India Gate

Prime Minister Shri Narendra Modi unveiled the hologram statue of Netaji Subhas Chandra Bose at India Gate in New Delhi on 25th January (23rd January). Shri Modi said, the statue is a tribute of a grateful nation to the great hero of freedom struggle. The grand statue of Netaji, who had established the first independent government in the soil of India, has been installed digitally near India Gate and soon this hologram statue will be replaced by a granite statue. Meanwhile, the Subhas Chandra Bose Aapda Prabhanth Sanstha 2022 has been conferred on the Gujarat Institute of Disaster Management (Institutional Category) and Professor Vinod Sharma (Individual Category) for their excellent work in disaster management.

Railways launch investigation into alleged recruitment irregularities

Indian Railways has formed a high power committee to look into the concerns and doubts raised by job aspirants in regard to the shortlisting process for the Non-Technical Popular Categories (NTPC) examination and 1st Stage Computer Based Test (CBT) of the recruitment of 143,000 posts announced on Sunday. The Committee has been constituted with the results of 1st Stage CBT and methodology used for shortlisting candidates for 2nd Stage CBT without affecting existing shortlisted candidates. It will also look into introduction of 2nd Stage CBT in Centralized Employment Notification. The candidates can lodge their concerns and suggestions through the Committee at rrbcommittee@railnet.gov.in up to 16th February, 2022. All Chairpersons of Railway Recruitment Boards (RRBs) have also been directed to receive the grievances of candidates through their existing channels, compile these grievances and send the same to the Committee.

Revised guidelines for management of COVID-19 in children

Health Minister Harsh Vardhan has issued revised comprehensive guidelines for the management of COVID-19 in children and adolescents. The Ministry has recommended not using antivirals or monoclonal antibodies for children less than 18 years of age irrespective of the severity of infection. It is also recommended that anticoagulants should not be used on regular basis. The guidelines state that self-medication of steroids must be avoided and use of steroids is harmful in asymptomatic and mild cases of Covid-19. It further added that steroids must be given in hospitalized and critically-ill Covid-19 cases under strict supervision. It said, steroids should be used at the right time in the right dose and for the right duration. The Ministry has also clarified that no data has been leaked from Co-WIN portal.

Govt orders blocking 35 Pakistan-based social media channels

The Centre has ordered blocking of 35 Pakistan-based YouTube channels and two websites that were involved in spreading anti-India fake news in a coordinated manner over digital media,径。Two Twitter accounts, two Instagram accounts, and one Facebook account have also been blocked by the Government for being involved in spreading coordinated anti-India disinformation over the internet. These include the Apna Dunya Network operating 14 YouTube channels, and Taliban Films Network operating 13 YouTube channels. A set of four channels and a set of two other channels were also found to be acting in synchronization with each other. All these networks appeared to be operated with a single goal of spreading fake news oriented towards the Indian audience, according to Secretary in Ministry of Information and Broadcasting, Shri Arvind Chandra.

Indian Navy inducts two made in India Advanced Light Helicopters

In a boost to maritime security, the indigenous Advanced Light Helicopter (ALH) MK II aircraft, was formally inducted at INS Ukhrul by Andaman and Nicobar Command (CINCAN) chief Lieutenant General Aaji Singh at Port Blair. The induction marks a continuing increase in the capabilities of the Andaman and Nicobar Command in the past two decades of its existence as India’s only joint theatre command. The ALK MK III aircraft is manufactured by Hindustan Aeronautics Limited and represents a tremendous leap towards self-reliance in the field of military aircraft, in line with the government’s push towards ‘Aatmanirbhar Bharat.’ Till date, over 300 of these aircraft have been delivered by HAL and are being flown by the Armed Forces. Amongst its variants, the MK III variant is a maritime role variant encompassing state-of-the-art sensors and weapons that add punch to India’s prowess at sea.

Chinese PLA return missing Arunachal youth

Following the efforts of the Indian Army along with all government agencies, China’s People’s Liberation Army (PLA) handed over Miran Taron, the missing Indian teenager from Arunachal Pradesh on 27th January at Damai, Border Personnel Meeting Point, across Anjaw District of Arunachal Pradesh. The 17 year old teenager, Miran Taron from Upper Siang District of Arunachal Pradesh had inadvertently strayed and went missing from the border on 18th January 2022. Indian Army has thanked China’s PLA for upholding the Border Defence Cooperation Agreements. "activities

Philippines to purchase India’s BrahMos Anti-Ship Missile System

BrahMos Aerospace Private Limited (BAPL) signed a contract with the Department of National Defense of the Republic of Philippines on January 29, 2022 for supply of Shore Based Anti-Ship Missile System to Philippines. The BAPL is a joint venture company of the Defence Research and Development Organisation (DRDO). The contract is an important step forward for Government of India’s policy of promoting responsible defense exports.

Scheme on Enhancement of Competitiveness in Indian Capital Goods Sector

Phase-II

Ministry of Heavy Industries (MHI) has notified the Scheme on Enhancement of Competitiveness in the Indian Capital Goods Sector- Phase-II for providing assistance to common technology development and services infrastructure. The scheme has a financial outlay of Rs 1207 crores with budgetary support of Rs 975 crore and industries contribution of Rs 232 crore. The objective of Phase-II is to expand and enhance the impact created by Phase-I pilot scheme, thereby providing greater impetus through creation of a strong and globally competitive capital goods sector that contributes at least 25% to the manufacturing sector.

Air India efficiently handled euro 2020 matches

Air India has been officially handed over to the Tata Sons Limited with the completion of the disinvestment process. The Tata Group takes over the management and control of the airline. The transaction covers three entities, Air India, Air India Express and AirSATs. Civil Aviation Minister Shri Jyotiraditya Scindia said, this proves the Government’s ability and the resolve to carry out disinvestment effectively in non-strategic sectors as per the Vision 2030.

In a statement by the Tata Group, Chairman of Tata Sons Private Limited Shri N. Chandrasekaran said that Tata Group is excited to have Air India back and the group is committed to making this a world class airline. He said, Tata Group warmly welcomes all the employees of Air India to the Group. The Air India strategic disinvestment transaction has been completed with Government receiving a consideration of Rs. 2,700 crore from the Tata Sons Limited - a wholly owned subsidiary of Tata Sons.

Fit India Quiz Prelim: Two UP students top the charts

The results of the Preliminary Round of the first-ever Fit India Quiz have been announced. In nationwide competition organized by the Ministry of Youth Affairs and Sports, two students from Uttar Pradesh have outperformed students from other states to become the top scorers of the Preliminary Round. While Divyanshu Chomoll of Delhi Public School, Greater Noida won the top spot, he was closely followed by Shashwat Mishra of Sunbeam School, Lakharta, Varaman. The preliminary round of the Fit India Quiz, saw participants from 13,502 schools from more than 659 districts from all parts of the country. Out of these, 381 schools from across 36 States and Union Territories have been shortlisted for the State rounds. The Quiz carries a total prize money of Rs 3.25 crore which will be given out to winning schools and students at various phases of the quiz. The Preliminary round of the quiz was conducted by the National Testing Agency.

Smriti Mandhana named ICC Women’s Cricketer of 2021

India’s opening batter Smriti Mandhana has been named the ICC Women’s Cricketer of the Year for 2021. Smriti has won the Rachael Heyhoe-Flint Trophy and the Paola Goretti trophy for the second year in succession. The left-handed opener beat competition from Tammy Beaumont of England, Lizelle Lee of South Africa and Gaby Lewis of Ireland to clinch the honour. Smriti has also become the second woman cricketer after Australia’s Elysie Perry to win the honour more than once.

Syed Modi International: PV Sindhu wins Women’s Singles; Ishan Bhatiagrai - Tanisha Crosta bags Mixed Doubles trophy

Two-time Olympic medalist, PV. Sindhu has won the women’s singles title at the Syed Modi International badminton tournament. Sindhu defeated compatriot Malvika Bansod 21-13, 21-16 in the summit clash in Lucknow. The Men’s singles final of the tournament was declared as a ‘No Match’ after one of the finalists tested positive for COVID-19. The all-French clash was scheduled between Arnaud Merkl and Lucas Crato. Meanwhile, the Indian duo of Ishan Bhatiagrai and Tanisha Crosta clinched the Mixed Doubles title. The pair defeated compatriots T. Hema Nagendra Babu and Srideyda 21-16, 21-12 in the summit clash.
